

Justification of the modifications of the FCC ID: YV2-RUID and IC: 9309A-RUID

1. We changed the screen because the AMOLED screen is obsolete. So, we decided to use a TFT screen.
2. We changed the AC/DC power supply because the last manufacturer was not able to provide last revision of UL certification **(EN60950 Edition 2)**.

Xavier DUFOUR

Signature :

A handwritten signature in black ink, appearing to read 'X. Dufour', with a large, stylized flourish extending from the bottom right.
