RE: Applicant: QVS Marketing Inc, FCC ID: YVK-802NRUMSVQ (grant issued date: 10/27/2011), Request for changes in FCC grant note.

Changes on FCC grant notes	Justification
Replaced the FCC grant note " limited modular approval " with " Singular modular approval "	The wrong wording "limited" was placed in the FCC grant instead of correct wording "singular".
Removed the FCC grant note sentences : " The WLAN radio is operating in a 1x1 Spatial Multiplexing MIMO configuration as described in this filing " " This grant is valid only when the device is sold to OEM integrators and the OEM integrators are instructed to ensure that the end user has no manual instructions to remove or install the device. "	According to customer, this device is NOT MIMO device and the device may sold to others not only OEM manufacturer so the both sentences were removed.
Removed the FCC grant note " MO "	According to customer, this device is NOT MIMO device so the "MO" was removed.

Thank you,
Choon Sian Ooi
