Re: FCC ID: YWZ-HBCLB

To Whom It May Concern:

The following application is submitted on behalf of our client, Alpha - High Theft Solutions, A Division of Checkpoint Systems, Inc., for evaluation of their model HBCLOCK for certification under FCC Part 15.247.

The HBCLOCK provides article surveillance for retail environments. It attaches to the product by looping the cable through a fixed opening on the product and securing each end of the cable with a spring at each end of the cable.

The HBCLOCK was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.

Sam Wismer
Vice President, Technology
