Re: FCC ID: YWZ-NANOGATEAM

To Whom It May Concern:

The following application is submitted on behalf of our client, Alpha - High Theft Solutions, for evaluation of their model NANOGATE-AM for certification under FCC Part 15.209.

The NANOGATE-AM works in conjunction with Alpha – High Theft Solution's 3Alarm AM Tags to provide a simulation of the 58kHz AM Electronic Article Surveillance (EAS) gate to help prevent retail theft.

The NANOGATE-AM was tested in a configuration representative of typical installation and use. The EUT was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
