Herzliya 4612001

Country:

Israel

The ES700IPDE is compliant with periodic operation requirements, listed below:

- 1. The IPDE device does not allow continuous transmitting (such as voice, video and RC).
- 2. The IPDE is not manually operated. Its transmission pattern include up to six re-tries (in case of no response). The patterns of these re-tries are built as follows:
 - a. Up to 8 mSec transmission period
 - b. Minimum of 100 mSec reception period (break/polling)
- 3. These transmissions occur upon intrusion only none periodical in concept. Therefore, no manual activation/deactivation mechanism is necessary.
- 4. Since there is no periodical behavior except supervision transmissions and information signals, there are no predetermined intervals of any kind included in its algorithms.
