New FCC ID application based on FCC ID: UYW-413-0091B

I hereby request a new FCC ID, YYG-413-0100, for the em-trak B300 CSTDMA based on the SRT Neon II 413-0091, FCC ID UYW-413-0091B granted on 7th March 2018.

The em trak B300 CS (413-0100) differs from the NEON II CS (413-0091) only in branding, it's features, functionality and performance are the same. The branding extends to the front panel label and the covers on the product manual, nothing else is different. Therefore, all the test results and reports provided with the original application for the NEON II CS 413-0091 apply equally to the em trak B300 CS.

This letter is permission from SRT Marine Systems plc for an application to be made for a new FCC ID for the em trak B300 CS based on the grant for the NEON II CS 413-0091, FCC ID UYW-413-0091B, and using the reports provided as part of that original application.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'PSP', with a small apostrophe at the end.

Phil Pittaway

Quality Assurance Manager, SRT Marine Systems plc
