Documentation—*Quick Start Guide* (this document) and *Safety and Regulatory Information*

**i** **Note:** For safety and regulatory information, refer to the *Safety and Regulatory Information* document included with the AP.

## 2. Mount the AP

The AP can be mounted on a desktop, wall, or ceiling T-bar.

**i** **Note:** The AP can be placed on a desktop using the included rubber feet. When mounting the AP on a wall or ceiling, do not attach the rubber feet.

### a. Mounting on a Wall

- 1 Set two screws in the wall 140 mm (5.51 in.) apart.
- 2 Slide the AP's wall mounting slots down onto the screws so that the unit is secure.

### b. Mounting on a Ceiling T-Bar

- 1 Position the AP's ceiling-mount clip holders on either side of the T-bar.
- 2 Turn the AP until the two clips lock it to the T-bar.
- 3 The AP mounting supports two different sizes of suspended ceiling T-bars. The position illustrated above left is for 15 mm bars. Use the position at a 90 degrees angle for 24.5 mm bars.

## 3. Connect LAN Cable

- 1 Connect Category 5e or better cable to the Eth/PoE 1000BASE-T RJ-45 port.

**i** **Note:** The Eth/PoE port connection can also provide PoE power to the unit.

## 3. (Optional) Connect AC Power Adapter

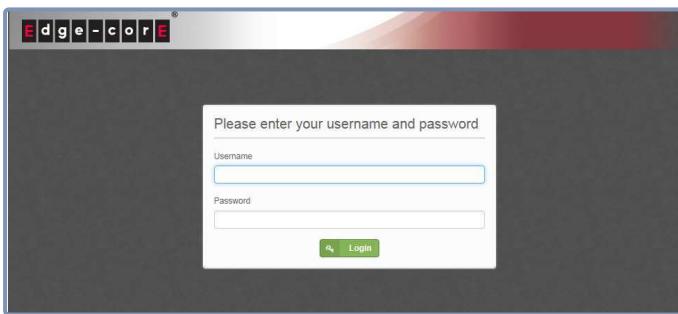

- 1 Connect the power adapter to the power socket on the AP.
- 2 Plug the power adapter into a nearby AC power source.

## 4. Verify AP Operation

- ① Power — on red for normal operation.
- ② LAN — on/blinking green for a valid RJ-45 port link.
- ③ 2G-WiFi/5G-WiFi — on/blinking green for radio enabled.

## 5. Connect to the Web User Interface

- ① Connect a PC directly to the AP's LAN port.
- ② Set the PC IP address to be on the same subnet as the AP (that is, the PC and AP addresses must both start 192.168.1.x with subnet mask 255.255.255.0).
- ③ Enter the AP's default management IP address of 192.168.1.1 into the web browser address bar.
- ④ Log in to the web interface using default settings:  
User Name = root  
Password = admin123

**i** **Note:** To reset the AP to factory defaults, press the Reset button for more than 5 seconds.

**Note:** For more information on AP configuration using the web interface, refer to the *Management Guide*, which is on the Edgecore web site, [www.edge-core.com](http://www.edge-core.com).
