

2.7" Graphic type Integrated ESL User Manual

Model
REBE-MZ27A
REBE-TZ27A

1. ESL Explanation

- Remote controller device provides customer with several functions as below
 - ✓ Updating new purchase image on Tag.
 - ✓ Deleting purchase image on Tag
 - ✓ Loading saved image on Tag
 - ✓ Waking Tag up from sleep mode

- Registration : Updating new purchase information on Tag
- Release : Deleting purchase information on Tag and turning Tag factory reset
- Next Page : Loading saved image on Tag
- Keep Alive : Waking Tag up from sleep mode

2. Tag Status

- Deep Sleep Mode

- Connected with Gateway

- Disconnected with Gateway

- Image Download Failed

- Battery discharge (The battery needs to be replaced)

INFORMATION TO THE USER

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Caution: Any changes or modifications to the equipment not expressly approved by the party responsible for compliance could void user's authority to operate the equipment. This appliance and its antenna must not be co-located or operation in conjunction with any other antenna or transmitter.

A minimum separation distance of 20 cm must be maintained between the antenna and the person for this appliance to satisfy the RF exposure requirement
