Dear Sir or Madam:

The RF module, model: AP6256, installed in our product: High-End Smart Video Phone for Android™, Model: GXV3450, FCC ID: YZZGXV3450, supports 2.4G Wi-Fi function. For use in the USA market, this module in this product only supports 2.4G Wi-Fi [2412-2462MHz (802.11b/g/n-HT20 mode)]. The other 2.4G Wi-Fi bands and 802.11n-HT40 mode has been shielded by the manufacturer by using the software.

Sincerely,

Signature

Ning Wei

Manager
