

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Radiation Emission Test Setup (Below 30MHz)

Radiation Emission Test Setup (30MHz to 1GHz)

<p>Radiation Emission Test Setup (1GHz to 18GHz)</p>	<p>A photograph of a radiation emission test chamber. The walls are covered with white, square-shaped pyramidal absorbers. The floor is covered with blue, conical absorbers. A yellow, rectangular test fixture is placed on a yellow, rectangular base. A red antenna is positioned to the right of the test fixture. A bright light source is visible in the upper left corner.</p>
<p>Radiation Emission Test Setup (Above 18GHz)</p>	<p>A photograph of a radiation emission test chamber, similar to the one above. The walls are covered with white, square-shaped pyramidal absorbers. The floor is covered with blue, conical absorbers. A yellow, rectangular test fixture is placed on a yellow, rectangular base. A blue cable is connected to the test fixture. A bright light source is visible in the upper left corner.</p>
