

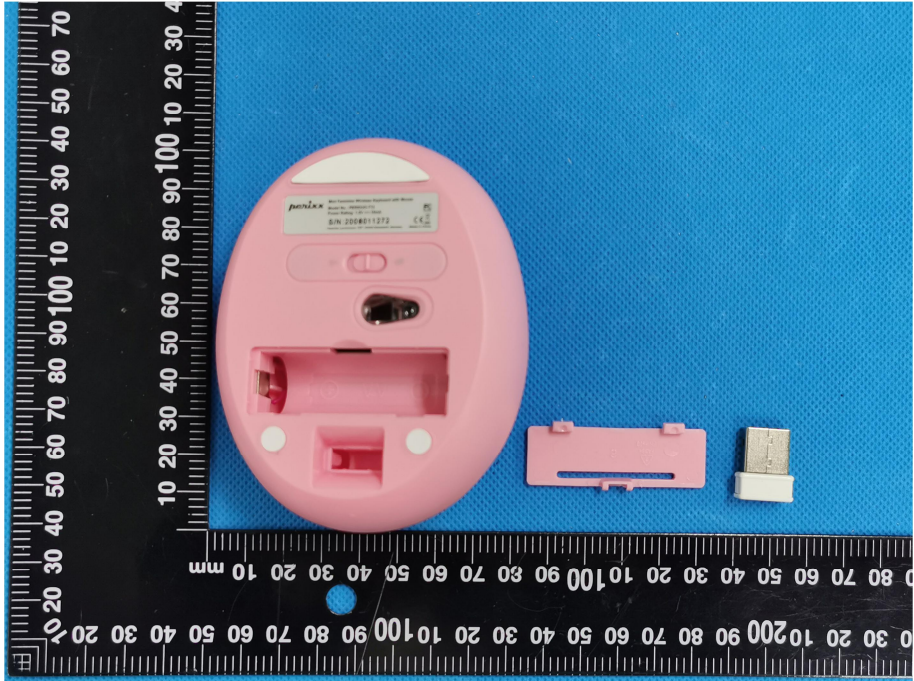

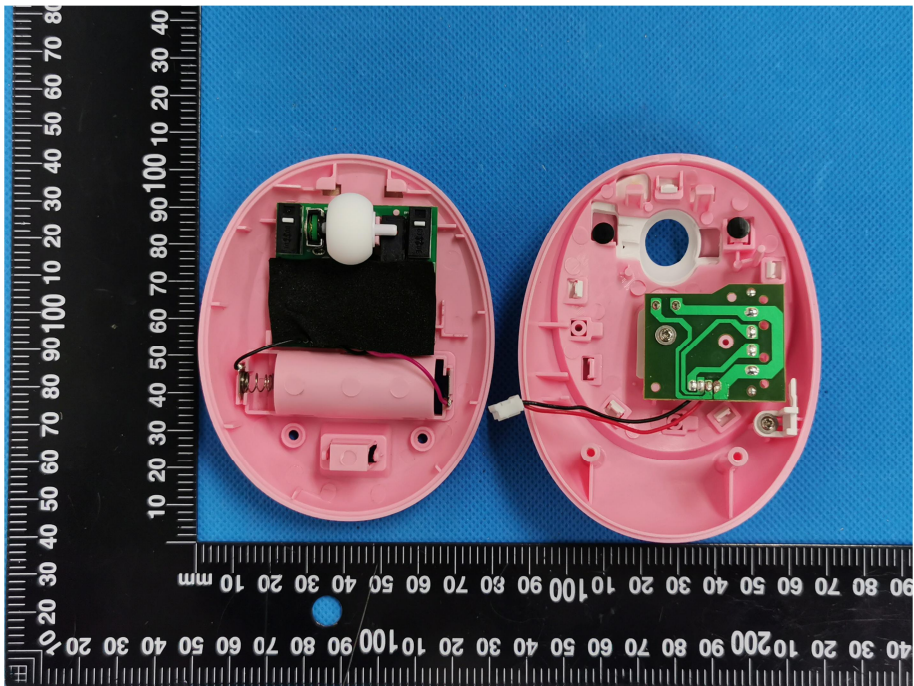

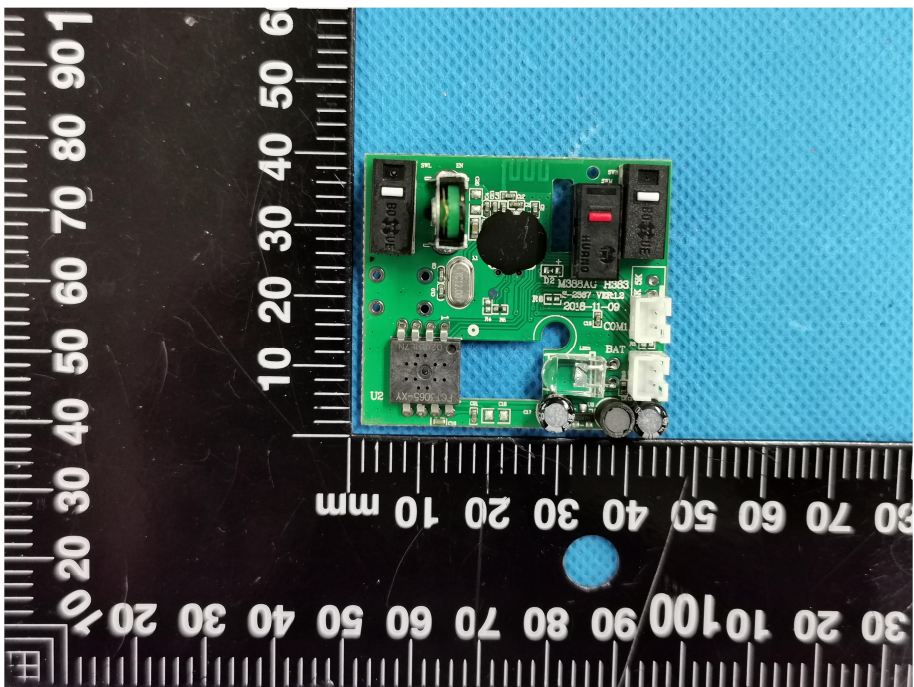

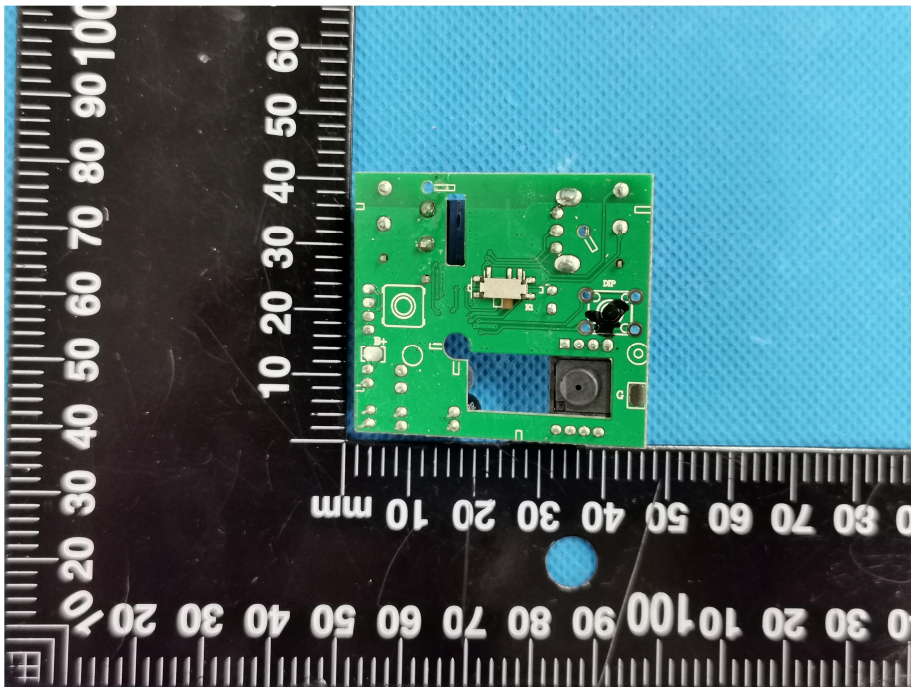

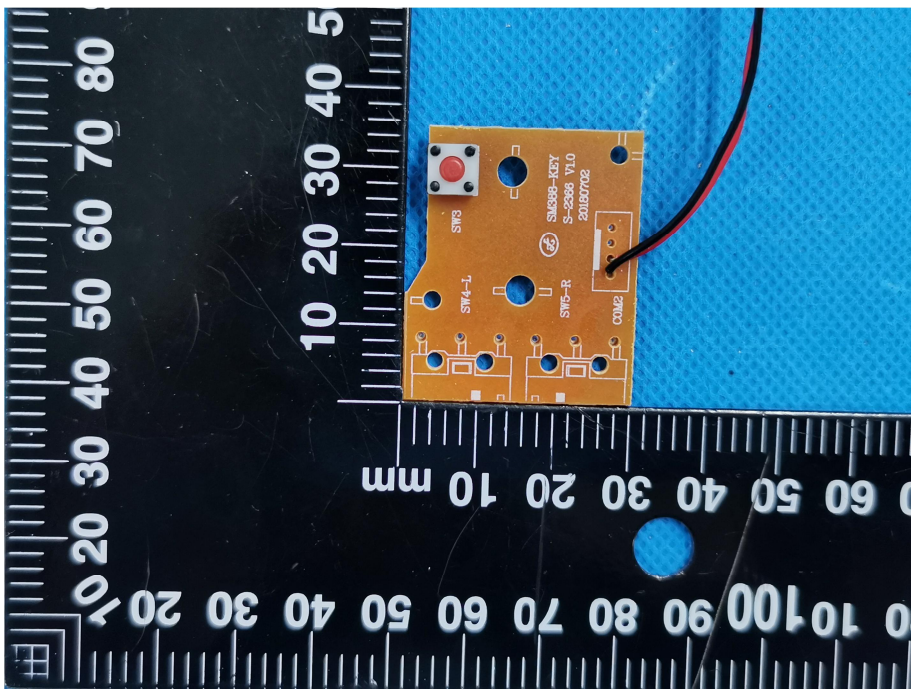

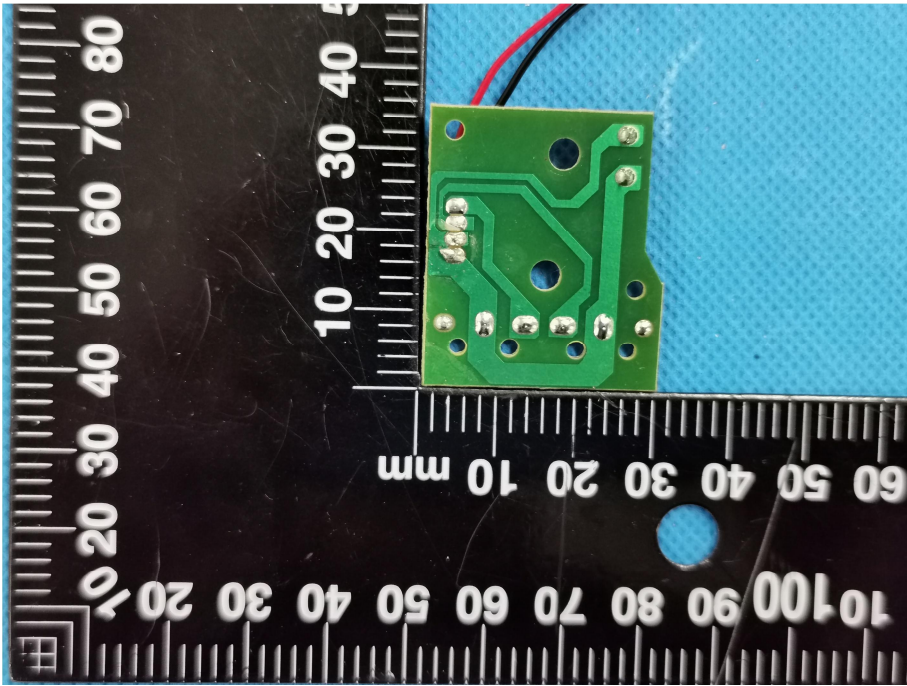

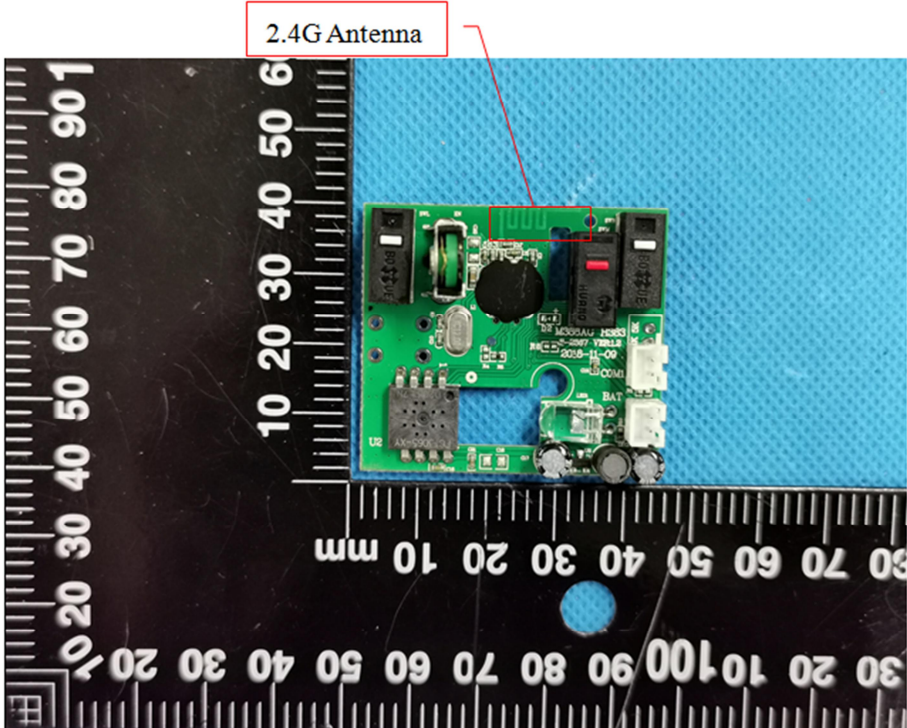

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	 <p>This photograph shows the back of a pink oval-shaped device. A ruler is placed vertically and horizontally for scale. The device has a battery compartment with a red tab and a USB port. A small pink component is shown to the right. The device has a label with the following text:  penixx Model No. WTX21X02012951W Serial Number: 2008011272 S/N: 2008011272 CE mark</p>
<p><b>EUT Housing and Board View 2</b></p>	 <p>This photograph shows the back of a pink oval-shaped device, similar to View 1. A ruler is placed vertically and horizontally for scale. The device has a battery compartment with a red tab and a USB port. A small pink component and a USB connector are shown to the right. The device has a label with the following text:  penixx Model No. WTX21X02012951W Serial Number: 2008011272 S/N: 2008011272 CE mark</p>

<p><b>EUT Housing and Board</b> <b>View 3</b></p>	
<p><b>Solder</b> <b>Board-Component View</b> <b>1</b></p>	

<p style="text-align: center;"><b>Solder Board-Component View 2</b></p>	 A photograph of a green printed circuit board (PCB) component. The board is rectangular and populated with various electronic components, including a central integrated circuit, several resistors, and a circular component on the right side. The board is placed on a black surface with a white ruler for scale. The ruler shows markings in millimeters, with the component's width being approximately 40 mm and its height approximately 30 mm. The background is a blue textured surface.
<p style="text-align: center;"><b>Solder Board-Component View 3</b></p>	 A photograph of a brown PCB component. The board is rectangular and features several circular components, likely switches or potentiometers, labeled SW4-L, SW4-R, SW5-R, and SW3. A red and black wire is connected to the board. The board is placed on a black surface with a white ruler for scale. The ruler shows markings in millimeters, with the component's width being approximately 40 mm and its height approximately 15 mm. The background is a blue textured surface.

<p>Solder Board-Component View 4</p>	 <p>A photograph showing a close-up of a green printed circuit board (PCB) component. The component is rectangular and features several silver solder joints along its edges. It is placed on a black surface with a white ruler for scale. The ruler shows markings in millimeters, with the component positioned between the 10 mm and 50 mm marks. The background is a blue textured surface.</p>
<p>Antenna View</p>	 <p>A photograph showing a larger view of a green PCB component. The component is rectangular and contains various electronic components, including a black circular component and several integrated circuits. A red box highlights a specific area on the board, labeled "2.4G Antenna". The component is placed on a black surface with a white ruler for scale. The ruler shows markings in millimeters, with the component positioned between the 10 mm and 50 mm marks. The background is a blue textured surface.</p>
