| <p>Solder Board-Component View 1</p> |  |

| | |
|---|--|
| <p style="text-align: center;">Solder Board-Component View 2</p> |  <p>A photograph of a green printed circuit board (PCB) component, likely a solder mask, placed on a blue textured surface. The component is irregularly shaped with several holes and a central circular feature. It is surrounded by a black ruler with white markings in millimeters, showing dimensions from 0 to 100 mm. The component is positioned roughly between the 30 mm and 70 mm marks on the ruler.</p> |
| <p style="text-align: center;">Antenna View</p> |  <p>A photograph of the same green PCB component as in the previous view, showing a specific antenna structure. A red box highlights a section of the board, and a red line points to it from a label "2.4G Antenna" in a white box. The component is placed on a blue textured surface with a black ruler showing millimeter markings from 0 to 100 mm. The antenna structure is located on the right side of the component, between the 40 mm and 70 mm marks on the ruler.</p> |
