

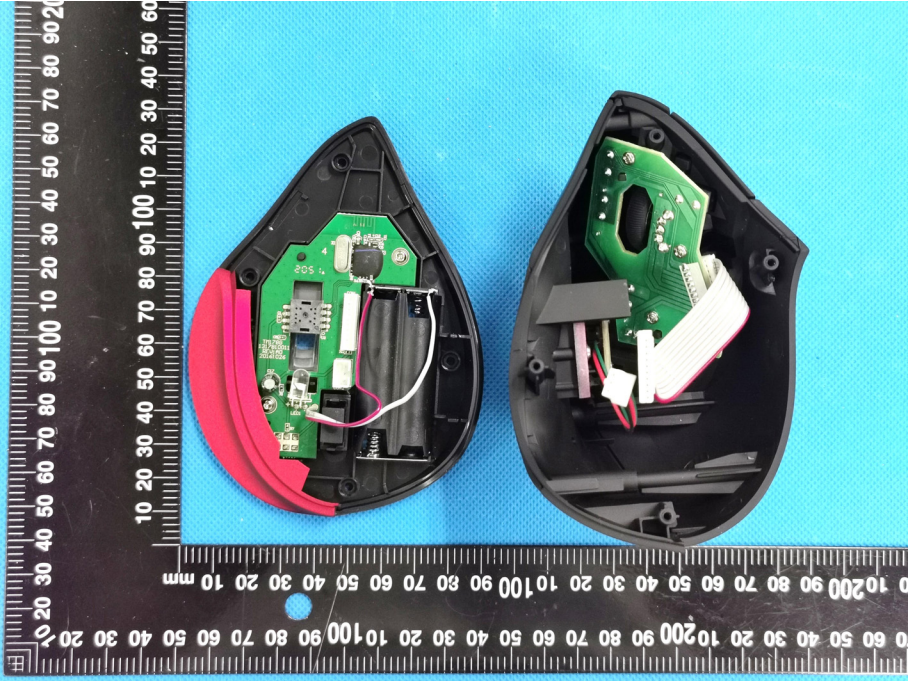

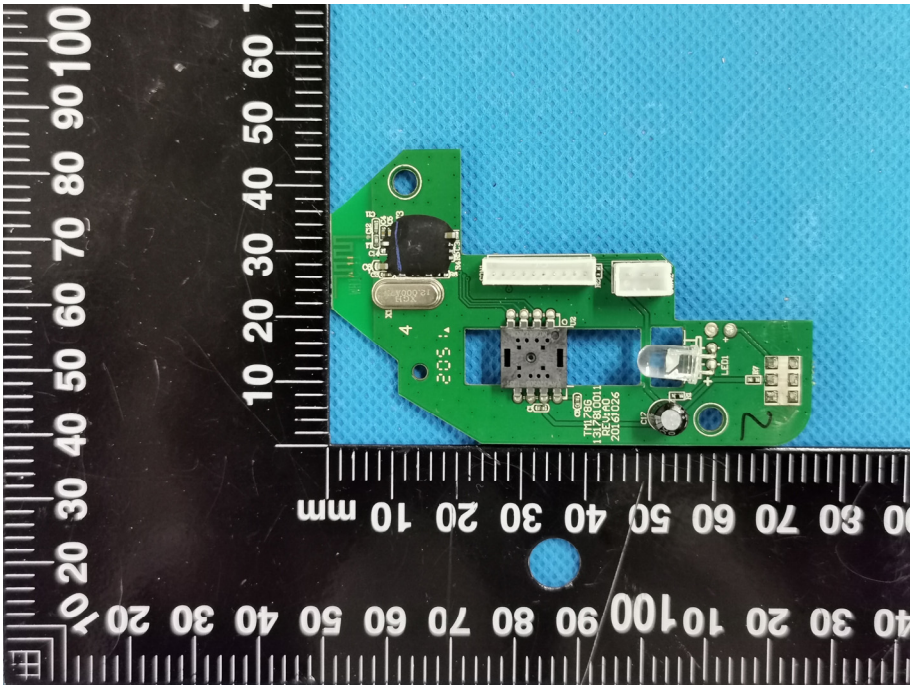

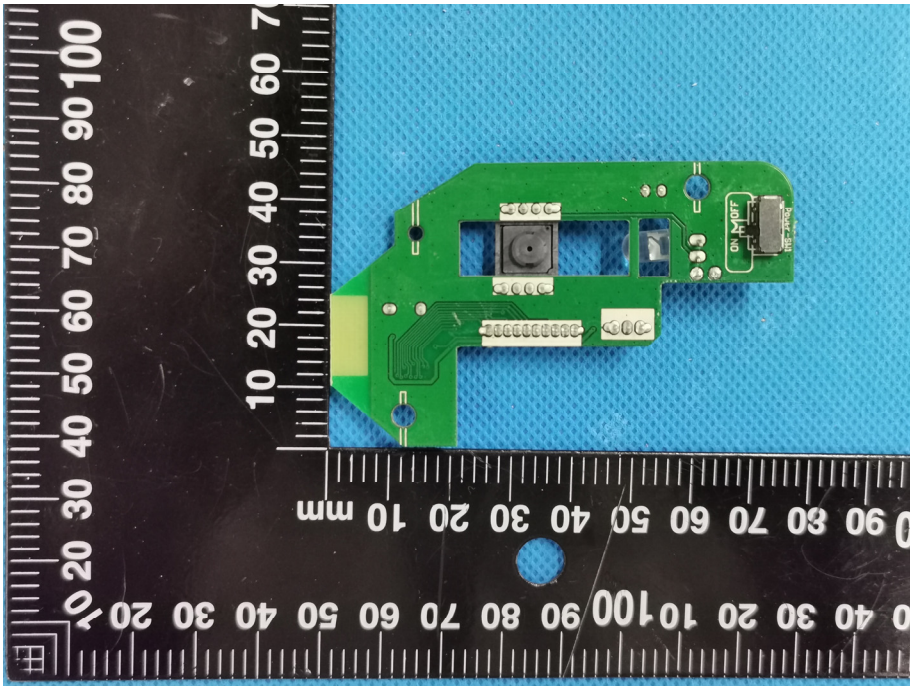

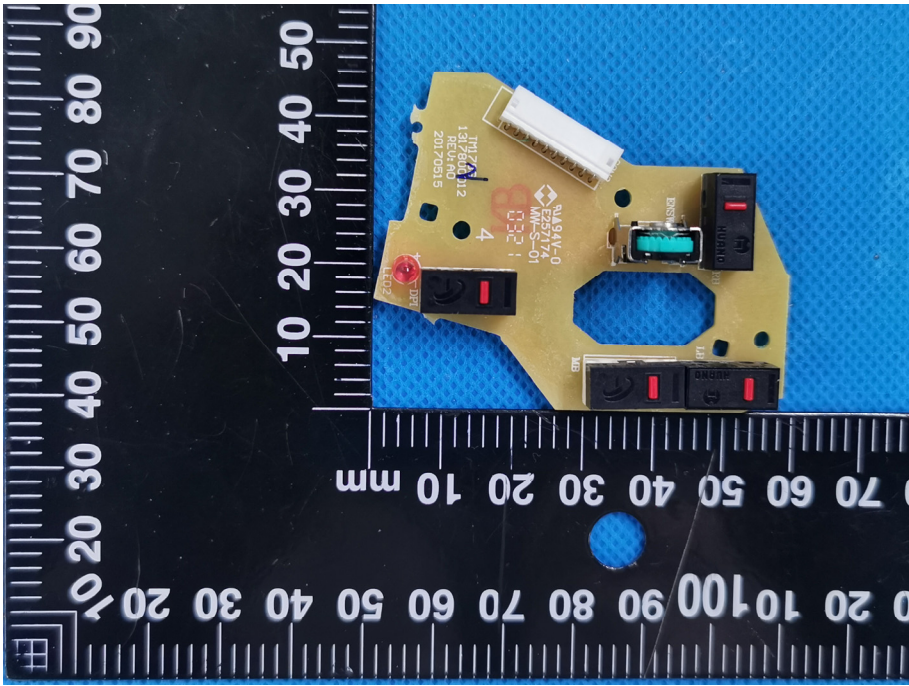

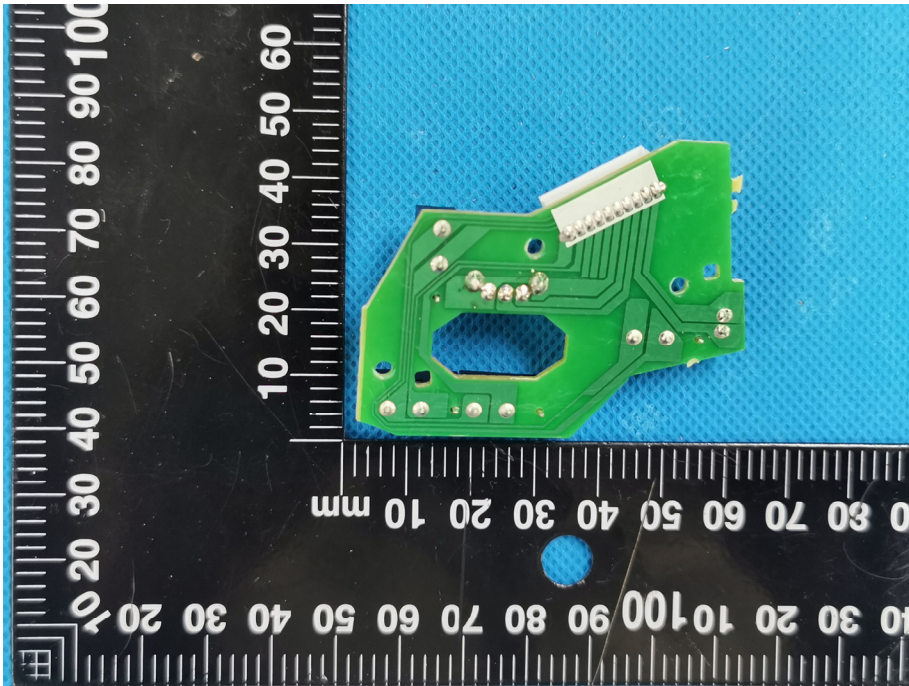

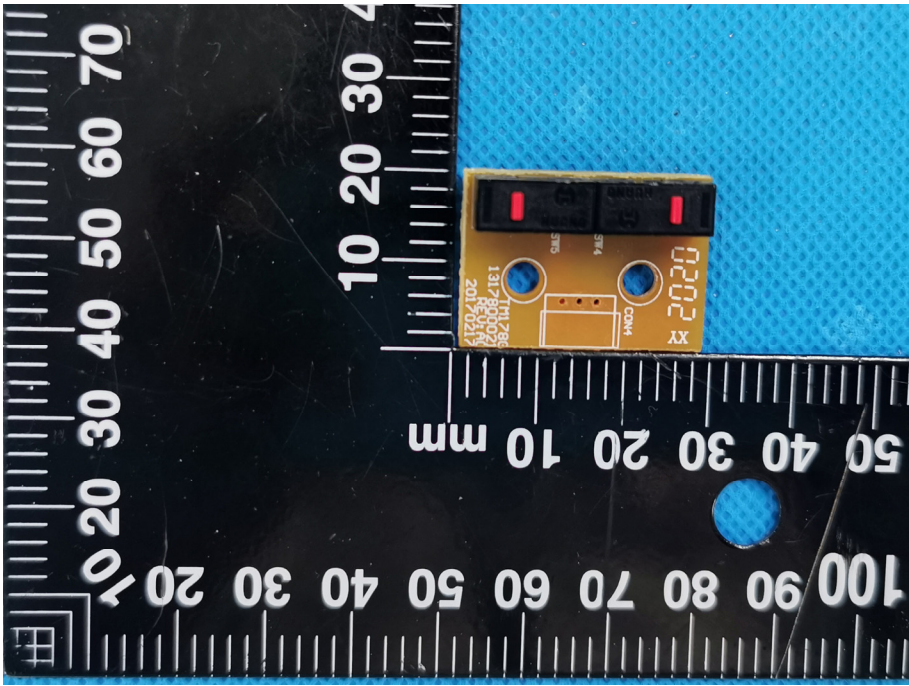

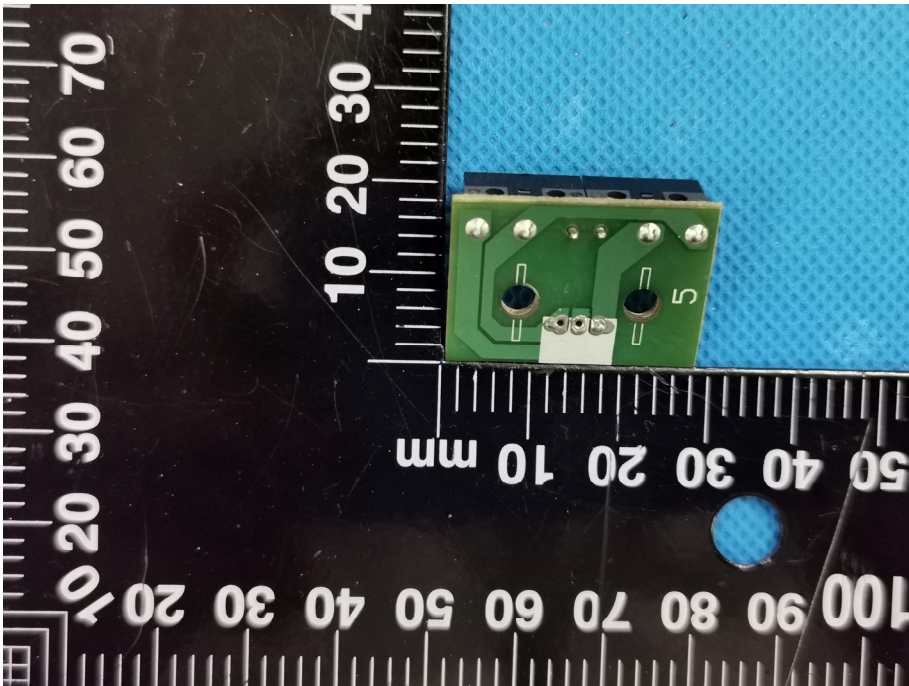

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	
<p><b>EUT Housing and Board View 2</b></p>	

<p style="text-align: center;"><b>Solder Board-Component View 1</b></p>	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The component is irregularly shaped with a central cutout. It features several components: a large black integrated circuit (IC) at the top, a silver cylindrical component, a white rectangular component, and a small blue component. The board is marked with '203', '174286', '18347001', and '20161026'. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
<p style="text-align: center;"><b>Solder Board-Component View 2</b></p>	 A photograph of the same green PCB component, labeled 'Solder Board-Component View 2'. This view shows the reverse side of the component. It features a central cutout, a white rectangular component, and a small blue component. The board is marked with 'ON', 'M/D/T', and '102-2004'. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.

<p>Solder Board-Component View 3</p>	 <p>A photograph of a yellow PCB component with various electronic components and a white connector. The component is placed on a blue textured surface with a black ruler for scale. The ruler shows measurements in millimeters, with the component's length being approximately 85 mm and its width approximately 45 mm. The PCB has several components including a red push-button, a black push-button, a green component, and a white connector. Text on the PCB includes '13280212', '20170915', '4', 'WALSLEY', '0321', and 'WALSLEY'.</p>
<p>Solder Board-Component View 4</p>	 <p>A photograph of a green PCB component with a white connector and several solder joints. The component is placed on a blue textured surface with a black ruler for scale. The ruler shows measurements in millimeters, with the component's length being approximately 85 mm and its width approximately 45 mm. The PCB has a white connector and several solder joints.</p>

<p>Solder Board-Component View 5</p>	 A photograph showing a small, rectangular, gold-colored component mounted on a black PCB. The component has two red LEDs and two blue circular features. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 10 mm and 30 mm marks. The component has some text printed on it, including '0202', 'THD', 'CABLE', 'PALS', '1317', '80002', and '20150515'.
<p>Solder Board-Component View 6</p>	 A photograph showing a small, rectangular, green PCB component mounted on a black PCB. The component has two blue circular features and two silver solder points. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 10 mm and 30 mm marks. The component has the number '5' printed on it.
