

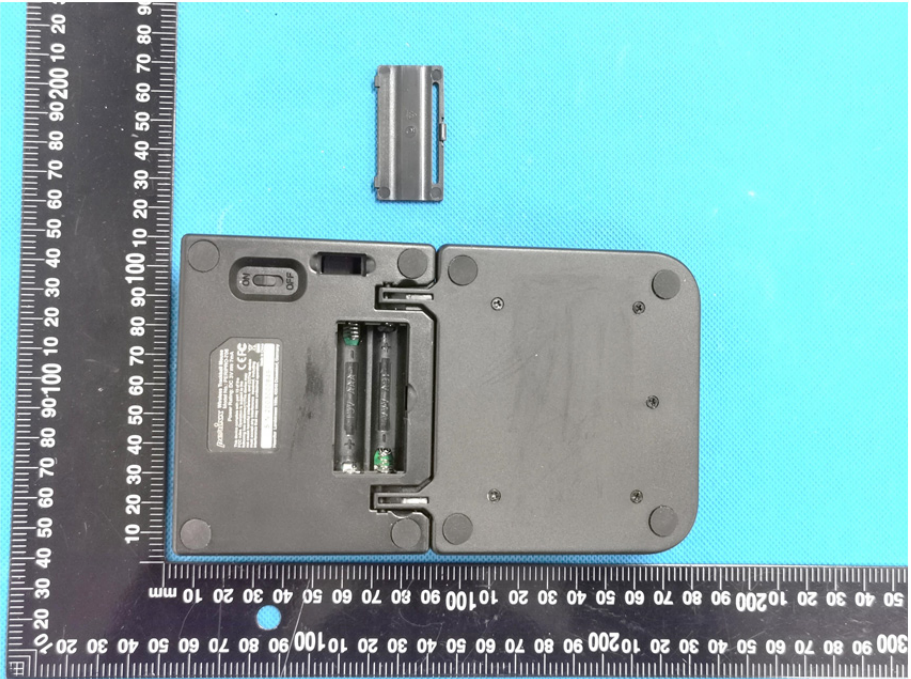

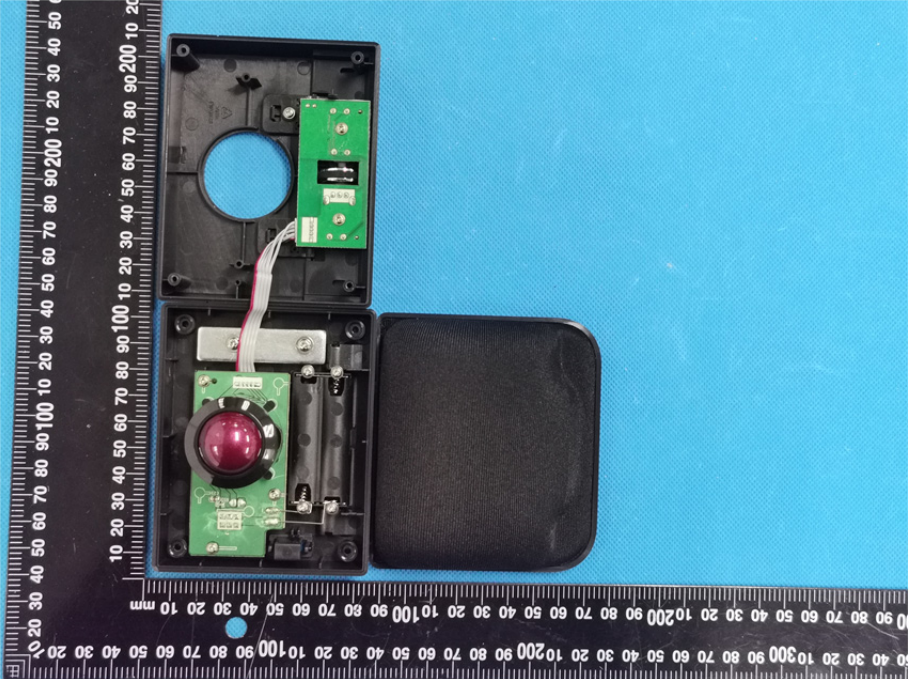

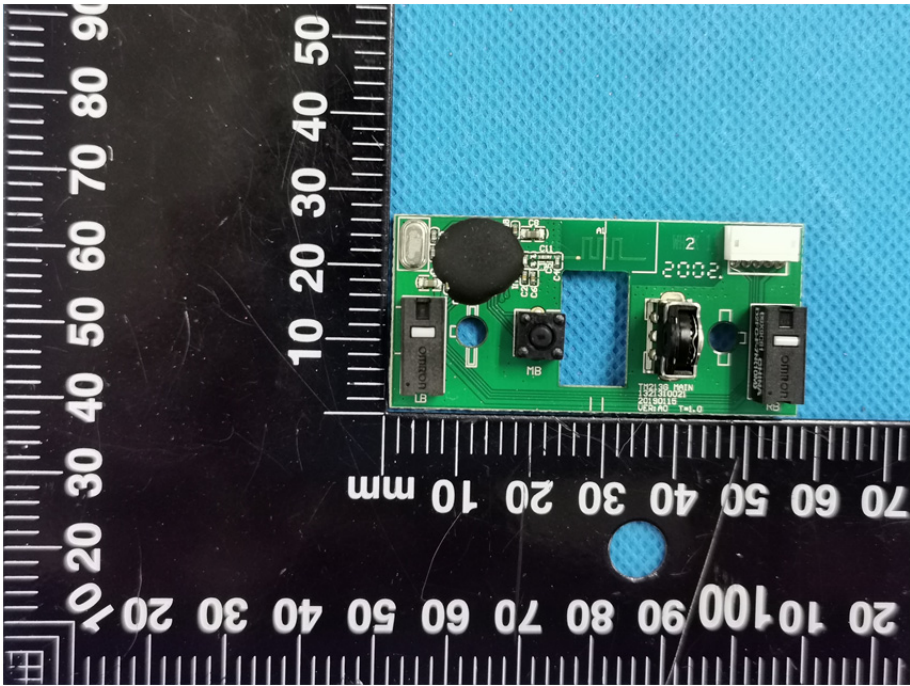

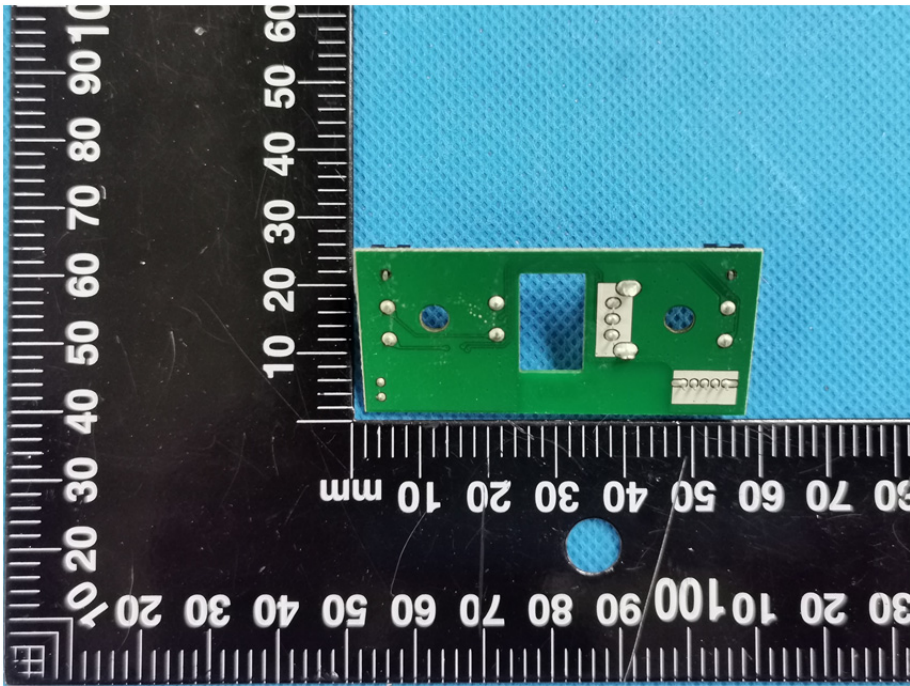

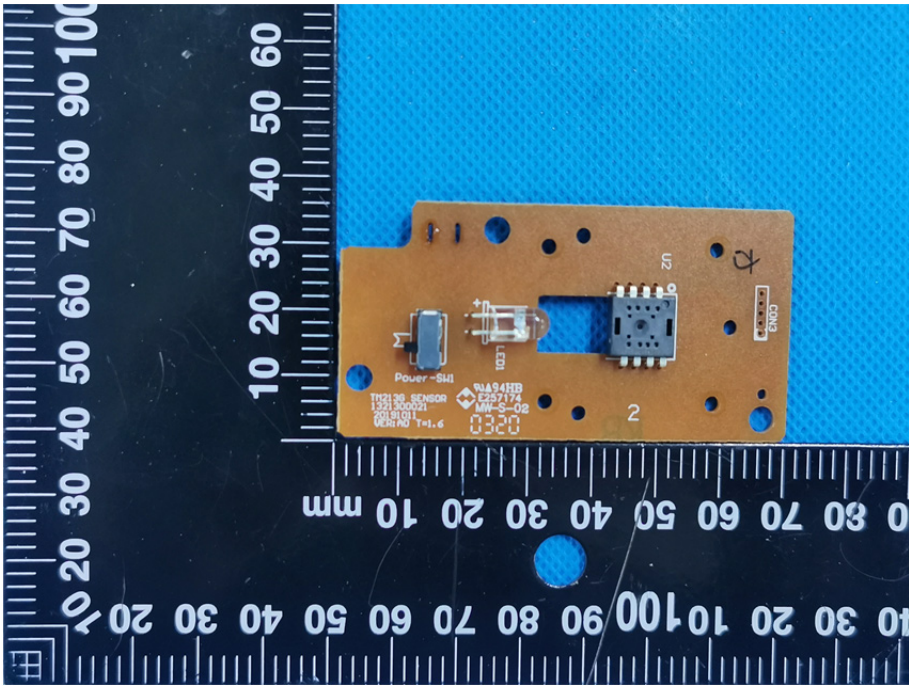

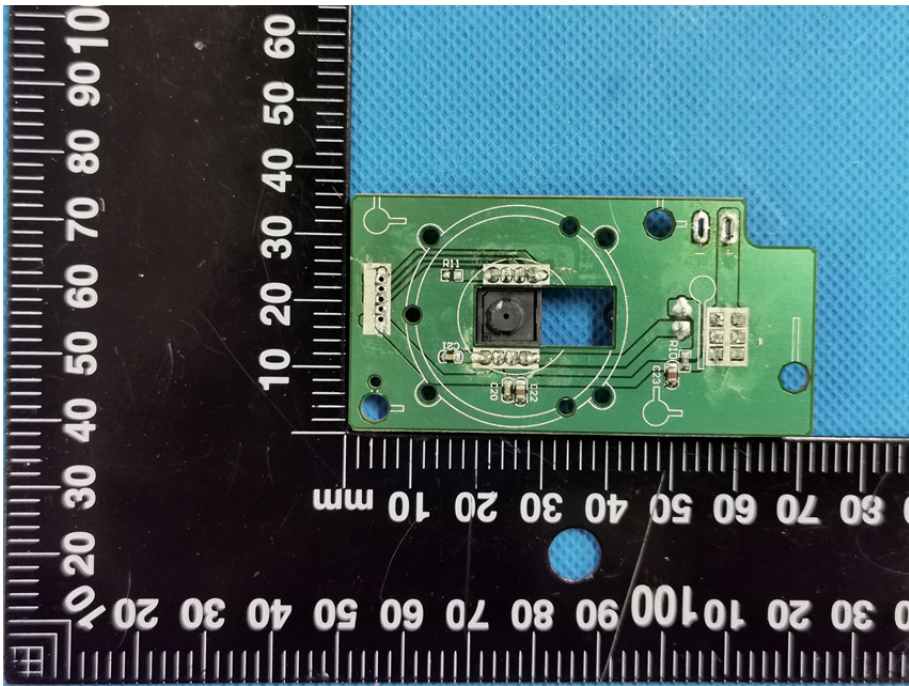

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	
<p>EUT Housing and Board View 2</p>	

<p style="text-align: center;">Solder Board-Component View 1</p>	 <p>A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The board is rectangular and populated with various electronic components, including a large black cylindrical component, a small black component labeled 'MB', a component labeled '2002', and two integrated circuits labeled 'L64890'. The board is placed on a blue textured surface. A black ruler with white markings is visible at the bottom and left, showing measurements in millimeters. The ruler markings are oriented vertically and horizontally, with the vertical scale on the left ranging from 0 to 90 mm and the horizontal scale at the bottom ranging from 0 to 100 mm.</p>
<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph of the same green PCB component, labeled 'Solder Board-Component View 2'. This view shows the reverse side of the board, which is populated with several surface-mount components, including a component labeled '2002' and several small components. The board is placed on a blue textured surface. A black ruler with white markings is visible at the bottom and left, showing measurements in millimeters. The ruler markings are oriented vertically and horizontally, with the vertical scale on the left ranging from 0 to 100 mm and the horizontal scale at the bottom ranging from 0 to 100 mm.</p>

<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A photograph of a brown printed circuit board (PCB) component. The board is irregularly shaped with several circular holes. It features a central square cutout. Various electronic components are mounted on the board, including a blue component labeled 'Power-SM1', a small blue component labeled 'LED1', and a larger component labeled 'U2'. A capacitor labeled 'COND3' is also visible. The board is placed on a blue textured background. A black ruler with white markings is positioned to the left and bottom of the board, showing measurements in millimeters (0 to 100 mm).</p>
<p style="text-align: center;">Solder Board-Component View 4</p>	 <p>A photograph of a green printed circuit board (PCB) component. The board is irregularly shaped with several circular holes. It features a central square cutout. Various electronic components are mounted on the board, including a central component labeled 'R11', a component labeled 'C21', and a component labeled 'R10'. The board is placed on a blue textured background. A black ruler with white markings is positioned to the left and bottom of the board, showing measurements in millimeters (0 to 100 mm).</p>
