FCC ID Z2A5111BT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

S111 BT
Manual

support.arctic.ac/S111BT

Dear,

Thank you for choosing the ARCTIC S111 BT.

This compact system is the perfect companion to your smartphone or tablet for on-the-go music enjoyment. An extra large driver-magnet allows us to get the maximum out of these small boxes.

I hope you enjoy the S111 BT and we at ARCTIC look forward to further enriching your life with our products. If you would like to share how you use ARCTIC's products please do so at <https://www.facebook.com/ARCTIC.en>

ARCTIC is a fully carbon neutral company and your support helps us to compensate every kilogram of CO₂ we produce. Thank You.

Sincerely,

Magnus Huber
ARCTIC CEO

Getting Connected

The S111 BT allows you to pair with your mobile device in two different ways:

A. Bluetooth Pairing

1. Turn on S111 BT by short press the power button .
2. The S111 BT automatically enters pairing mode shown by the red and blue LED flash alternately.
3. Turn on Bluetooth on your phone and pair it with the speaker.

Notes:

- Pairing mode will last up to five minutes or until a device is found, the speaker will automatically turn off without successful pairing within this period.
- If you exceed the effective range of approx. 10M (33ft) the speaker will disconnect and will automatically reconnect if the speaker re-enters the effective range within five minutes.

Example: iOS

Press Settings > Bluetooth and switch Bluetooth on > S111BT > Pair

Example: Android 4.0

Press Menu > Settings > Switch on Bluetooth > Bluetooth > Search for devices > S111BT > Pair

B. Connect via Cable

1. Turn on S111 BT by short press the power button .
2. Insert one end of the 3.5mm audio cable into the speaker and the other end into your mobile device headphone's output.
3. Enjoy your music !

LED Light Signals

Blue

- Blue light flashing means the speaker device is on.
- Blue light on constantly means speaker is paired to a device / fully charged.

Red

- Red light on constantly means the battery is at around 50% / charging.

Red & Blue

- When both the red and the blue lights are flashing, it means the speaker is in pairing mode.
- When both the red and the blue lights are flashing every one second, means the battery is at around 25%

Reconnection

Via Bluetooth

1. Turn on Bluetooth on phone.
2. Turn on S111 BT by short press the power button .
3. If your device was the latest one to be paired with the S111 BT it will connect automatically otherwise please repeat pairing section.
