- lumières intérieures du véhicule doivent être activées pour que le système d'éclairage d'ambiance fonctionne.)
- While the vehicle's ignition is Running the accent lighting will dim. / Una vez activado el interruptor de encendido el vehículo, las luces decorativas se atenuarán. / Lorsque le véhicule démarre, l'éclairage d'ambiance s'atténue.
- When vehicle is turned off Illumination will return to full intensity. Then turns off when vehicles room lamp turns off. / Cuando se apaga el vehículo, la iluminación volverá a su máxima intensidad. Luego se apaga junto con el resto de las luces interiors / Lorsque le véhicule est éteint, l'éclairage d'ambiance reprend sa pleine intensité avant de s'éteindre simultanément avec les lumières intérieures du véhicule.

FCC certification of this device refers to RF exposure testing under typical operating conditions, taking into account that this device can only be installed in designated vehicles.

To demonstrate compliance with RF exposure 2.1093- Portable category, it is acceptable for the passenger to be no more than 10 cm from the equipment surface and the driver no more than 11 cm from the equipment surface, according to KDB 951290 Section 3.3.

This device is certified as fully compliant with FCC Wireless Power Transmission KDB 680106 requirements only under specified conditions.

The FCC certification of this device refers to RF exposure testing performed in typical operating conditions, where a person is no closer than 10 centimeters from the device surface at all times, except for non-repetitive patterns with transient time intervals in the order of a second. Only in the stated conditions, the device is shown to fully comply with the FCC RF Exposure requirements of KDB 447498.

Compliance Information

FCC ID: Z3K-4361113

IC: 9930A-4361113

FCC Notice

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause unacceptable interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the device and receiver.
 - Connect the device into an outlet on a circuit different from that to which the receiver is connected.
 - Consult your dealer or an experienced radio/TV technician for help.
-
- **FCC Warning:**
 - To assure continued FCC compliance, the user must use the provided grounded power supply cord and the shielded video interface cable with bonded ferrite cores. Also, any unauthorized change or modifications to this device would void the user's authority to operate this device.
 - Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Compliance Information

WEEE Notice

Disposal of Old Electrical & Electronic Equipment (Applicable in the European Union and other European countries with separate collection systems)

This symbol on the product or on its packaging indicates that device shall not be treated as household waste. Instead, it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment. By ensuring this device is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this device. The recycling of materials will help to conserve natural resources. For more detailed information about recycling of this device, please contact your local city office, your household waste disposal service, or the shop where you purchased the device. Applicable accessory: remote control.
