

Guardzilla™

5" x 3.9"

SET-UP GUIDE

- 1 Plug in the Guardzilla Device.
- 2 Download the Guardzilla app for your smartphone.
- 3 Once installed, open the app to create an account or login with an existing Guardzilla account.
- 4 Next, go to your smartphone's Settings and join the Guardzilla Wi-Fi network called Guard-XXXX.
- 5 Use the "Search" or the "Scan QR code" options to retrieve your device details.
The device QR Code is located on the back of your Guardzilla.
- 6 Select your personal Wi-Fi network that you would like the Guardzilla to use.
- 7 Once Guardzilla is connected to your Wi-Fi network, click Finish to navigate back to the Guardzilla Home Screen to customize your device settings, arm your device and begin monitoring.

FCC Requirement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

“This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.”
