<p>1. Introduction</p> <p>Thank you for purchasing the Ausdom Bass One Wireless Active Noise Cancelling Headphones. Ausdom Bass One active noise cancelling technology detects and blocks out the noise around you while travelling, working or going anywhere, which enables you to focus on what you want to hear. Ausdom Bass One features IVC-Bass function that allows for free bass adjustment to a perfect balance, which delivers you an unprecedented and incredible listening experience.</p> <p>Bass One can be used in both wired and wireless modes via 3.5mm audio cable and wireless V5.0. Its powerful and rich bass speaker brings you amazing and fabulous audio enjoyment.</p> <p>Note: Please read the user manual carefully before using, and keep it properly for future reference.</p> <p>2. Package Contents</p> <ul style="list-style-type: none"> -1 x Wireless Headphones -1 x Type-C Charging Cable -1 x 3.5mm Audio Cable -1 x User Manual -1 x Compact Carrying Case -1 x Airplane Adapter <p>3. Product Overview</p>	<ol style="list-style-type: none"> 1.IVC-BASS Slider 2.Type-C Interface for Charging 3.Charging LED Indicator 4.Next Track/ V+ 5.Previous Track/ V- 6.3.5mm Line-in Port 7.Microphone 8.ANC LED Indicator 9.ANC Button 10.Power Button 11.Power LED Indicator 12.Type-C Charging Cable 13.3.5mm Audio Cable 14.Airplane Adapter 	<p>4. Charging the Headphones</p> <p>Use the supplied Type-C charging cable to recharge the headphones. It takes about 3.5 hours for the first charge, and only 3 hours for a subsequent charge. The headphone Charging LED turns to solid red during charging. When the battery is fully charged, the Charging LED turns to green.</p> <p>When the battery is low, the Power LED Indicator lights up red. At the same time, the headphones also provide a low battery warning tone.</p> <p>Note: It is strongly recommended fully charging for the first use. Playtime varies according to the volume level and audio content. The headphones will power off automatically if you plug the type-c cable in for charging. When you listening to music under Wireless mode, and you can't turn on the headphones while charging.</p> <p>active computer USB port</p> <p>5V/1A USB charging adapter</p>	<p>until it powers on but don't let go just yet. Continue holding down on the power button until you see the power LED indicator flashes blue and red alternately, which means your headphones are in "pairing mode" waiting to be paired with your device. You will hear a prompt.</p> <p>5). Select the "AUSDOM BASS ONE" to pair. Once successfully paired, the power LED turns to solid blue. You will hear a prompt.</p> <p>Note: Before pairing the headphones with computer, please make sure your computer or laptop has the built-in Wireless feature. If not, you must purchase a Wireless Dongle, preferably version 2.1 or above. AUSDOM BASS ONE will pair with the last paired device automatically when turning on. Because of different systems, some computers or laptops may need to be manually paired every time.</p> <p>6. Active Noise Canceling</p> <p>Ausdom Bass One contains a noise-cancelling circuit, noise mainly in an airplane, buses or trains is effectively reduced.</p> <ol style="list-style-type: none"> 1) The noise-cancelling effect may not be pronounced in a tranquil environment, or some noise may be heard. 2) The noise-cancelling effect may vary depending on how you wear the headphones. 3) The noise-cancelling function works for noise in the low-frequency band primarily. Although noise is reduced, it is not canceled out entirely. 	<p>7.IVC-BASS Function</p> <p>Ausdom Bass One features IVC-BASS function. The headphones have two built-in vibrating speakers that vibrate according to the bass frequency. And it also allows you to adjust the bass level freely to a perfect balance for better music enjoyment by simply moving the slider.</p> <p>Note: The Bass effect may not be pronounced while playing light music, and it's much better when play rap, rock, or heavy-bass music.</p> <p>8. Making and Answering a Call</p> <p>8-1 Making a Call</p> <ol style="list-style-type: none"> 1.Make sure the headphones are paired with the mobile phone. Dial through the mobile phone and press the call button on the phone. 2.To end a call, press the power button once or also end the call directly by the phone. <p>8-2 Answering a Call</p> <p>Make sure the headphones are paired with your phone. Please refer to chapter 5. <u>Pairing with Wireless-Enabled Devices</u>.</p> <ol style="list-style-type: none"> 1.Press the power button on your headphones to answer the call through headphones. If there is music playback, it will pause. 2.To end a call, press the power button once again or also end the call directly by the phone. 3.As soon as the call is ended, the music will continue to play automatically. 	<p>9.Line-in port</p> <p>The Line-in port can't work, no function.</p> <p>10. Caution</p> <ul style="list-style-type: none"> - Store the headphones in a dry place when it powers off. - If you don't use the headphones for a long period, charging the battery every 2 months for 1-2 hour. - Use a dry cloth for cleaning if needed. - Avoid dropping the headphones from high places or on hard surfaces. - Avoid exposing the headphones to extreme temperature. (Recommended Storage temperature is -40 C-80°C.) - The headphones are NOT waterproof. Avoid exposing the headphones to rain or getting liquids into any button port or other openings. - Please don't twist or bend the headphones. This may cause permanent deformation. - The built-in battery can't be disposed in the fire to avoid explosion. 	<p>11. Protecting Your Hearing</p> <p>The headphones are held close to your ears, so loud sounds pose a potential hearing risk. It is highly recommended that setting low volume level before putting on the headphones and avoiding exposing yourself continuously to high volumes. If you need to use the headphones for a long period, please rest ten minutes for a half hour using.</p>	<p>12. Control Instructions</p> <table border="1"> <thead> <tr> <th>Function</th> <th>Operation</th> </tr> </thead> <tbody> <tr> <td>Power on</td> <td>Press and hold the power button for 3s, and you will see the Power LED flash blue light and hear "Power On".</td> </tr> <tr> <td>Power off</td> <td>Press and hold the power button for 3s, and you will hear "Power Off".</td> </tr> <tr> <td>Pairing</td> <td>Press and hold the power button for about 5s till the Power LED flashes red and blue light alternately, and you will hear "Pairing".</td> </tr> <tr> <td>Increase volume</td> <td>Press the "+" button</td> </tr> <tr> <td>Decrease volume</td> <td>Press the "-" button</td> </tr> <tr> <td>Play music/video</td> <td>Press the power button</td> </tr> <tr> <td>Pause/restart music/video</td> <td>Press the power button</td> </tr> <tr> <td>Skip to next track</td> <td>Press and hold the "+" for 1.5s</td> </tr> <tr> <td>Skip to previous track</td> <td>Press and hold the "-" for 1.5s</td> </tr> <tr> <td>Answer a call</td> <td>Press the power button to answer</td> </tr> <tr> <td>End a call</td> <td>Press the power button</td> </tr> <tr> <td>ANC ON/OFF</td> <td>Press the ANC button to turn on/off</td> </tr> <tr> <td>IVC-BASS UP/DOWN</td> <td>Move the slider</td> </tr> </tbody> </table> <p>Note: There will be an alert tone when the volume reaches the maximum level.</p> <p>13. Troubleshooting</p> <p>Q: Under Wireless mode, why do the headphones automatically turn off when I connect it for charging?</p> <p>A: Normal! It turns off in order to protect the battery better.</p>	Function	Operation	Power on	Press and hold the power button for 3s, and you will see the Power LED flash blue light and hear "Power On".	Power off	Press and hold the power button for 3s, and you will hear "Power Off".	Pairing	Press and hold the power button for about 5s till the Power LED flashes red and blue light alternately, and you will hear "Pairing".	Increase volume	Press the "+" button	Decrease volume	Press the "-" button	Play music/video	Press the power button	Pause/restart music/video	Press the power button	Skip to next track	Press and hold the "+" for 1.5s	Skip to previous track	Press and hold the "-" for 1.5s	Answer a call	Press the power button to answer	End a call	Press the power button	ANC ON/OFF	Press the ANC button to turn on/off	IVC-BASS UP/DOWN	Move the slider	<p>Q: Why doesn't the headphones pair with the mobile phone?</p> <p>A: Please check the followings.</p> <ul style="list-style-type: none"> - Check that the headphones are on a full charge. - Make sure that the mobile phone's Wireless function is on. You can clear all connection history on your phone. - Make sure other paired device's wireless function is turned off. - Make sure the two devices are in the effective pairing range. (3ft/1m). - Make sure that there is no obstacle between the headphones and the mobile phone, such as electronic equipment and a wall. - Furthermore, make sure that the headphones are in pairing mode, and pair it with phone again. <p>Q: There is some noise.</p> <p>- A: Wireless is a radio technology, so it is sensitive to obstacles between the headphones and the pairing device. Please make sure that there is no obstacle between the two devices and is within 33ft/10m.</p> <p>Q: Why doesn't the bass work?</p> <p>A: It depends on what music style it plays. The Bass effect may not be pronounced while playing light music, and it's much better when play rap, rock, or heavy-bass music.</p> <p>Q: My mobile phone or computer cannot find the headphones.</p> <p>A: Please check that the headphones are in pairing mode. Refer to chapter 5. <u>Pairing with Wireless-Enabled Devices</u>. Sometimes when the headphones are connected too many Wireless devices, it cannot search and pair effectively. Or your mobile phone and computer are already connected to many other devices. Try removing some connections before searching the headphones.</p>	<p>14. This means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment. User has the choice to give his product to a competent recycling organization or to the retailer when he buys a new electrical or electronic equipment.</p> <p>CE FC RoHS Green Product</p> <p>DC voltage</p>	<p>FC</p> <p>This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.</p> <p>Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p> <p>Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> -Reorient or relocate the receiving antenna. -Increase the separation between the equipment and receiver. -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -Consult the dealer or an experienced radio/TV technician for help. <p>The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.</p>
Function	Operation																																																																																
Power on	Press and hold the power button for 3s, and you will see the Power LED flash blue light and hear "Power On".																																																																																
Power off	Press and hold the power button for 3s, and you will hear "Power Off".																																																																																
Pairing	Press and hold the power button for about 5s till the Power LED flashes red and blue light alternately, and you will hear "Pairing".																																																																																
Increase volume	Press the "+" button																																																																																
Decrease volume	Press the "-" button																																																																																
Play music/video	Press the power button																																																																																
Pause/restart music/video	Press the power button																																																																																
Skip to next track	Press and hold the "+" for 1.5s																																																																																
Skip to previous track	Press and hold the "-" for 1.5s																																																																																
Answer a call	Press the power button to answer																																																																																
End a call	Press the power button																																																																																
ANC ON/OFF	Press the ANC button to turn on/off																																																																																
IVC-BASS UP/DOWN	Move the slider																																																																																
Microphone Unit	4.0 x 1.5mm																																																																																
Directivity	Omnidirectional																																																																																
S.P.L	-42dB±3dB																																																																																
Impedance	<2.2kΩ																																																																																
Operating Voltage	2V																																																																																
Speaker Diameter	Φ40mm																																																																																
Impedance	32Ω																																																																																
S.P.L	110dB±3dB																																																																																
THD	0.5%																																																																																
Frequency Response	20Hz-20KHz																																																																																
Wireless Version	V5.0																																																																																
Wireless Distance	33ft/10m																																																																																
Transmission Frequency	2.402GHz-2.48GHz																																																																																
Support Profile	HSP/HFP/A2DP/AVRCP																																																																																
Pairing Name	AUSDOM BASS ONE																																																																																
Battery Type	Built-in 750mah rechargeable lithium battery																																																																																
Charging Port	Type-C 5V/1A																																																																																
Playtime	About 50h (Wireless Mode), About 35h (ANC ON/ Bass ON), About 25h (ANC ON + Bass ON)																																																																																
Standby Time	About 3000 hours																																																																																
Charging Time	About 3 hours																																																																																
Operating temperature	-10°C-45°C
