

THUNDER TUMBLER®

RADIO CONTROL 360° RALLY CAR

OPERATING INSTRUCTIONS

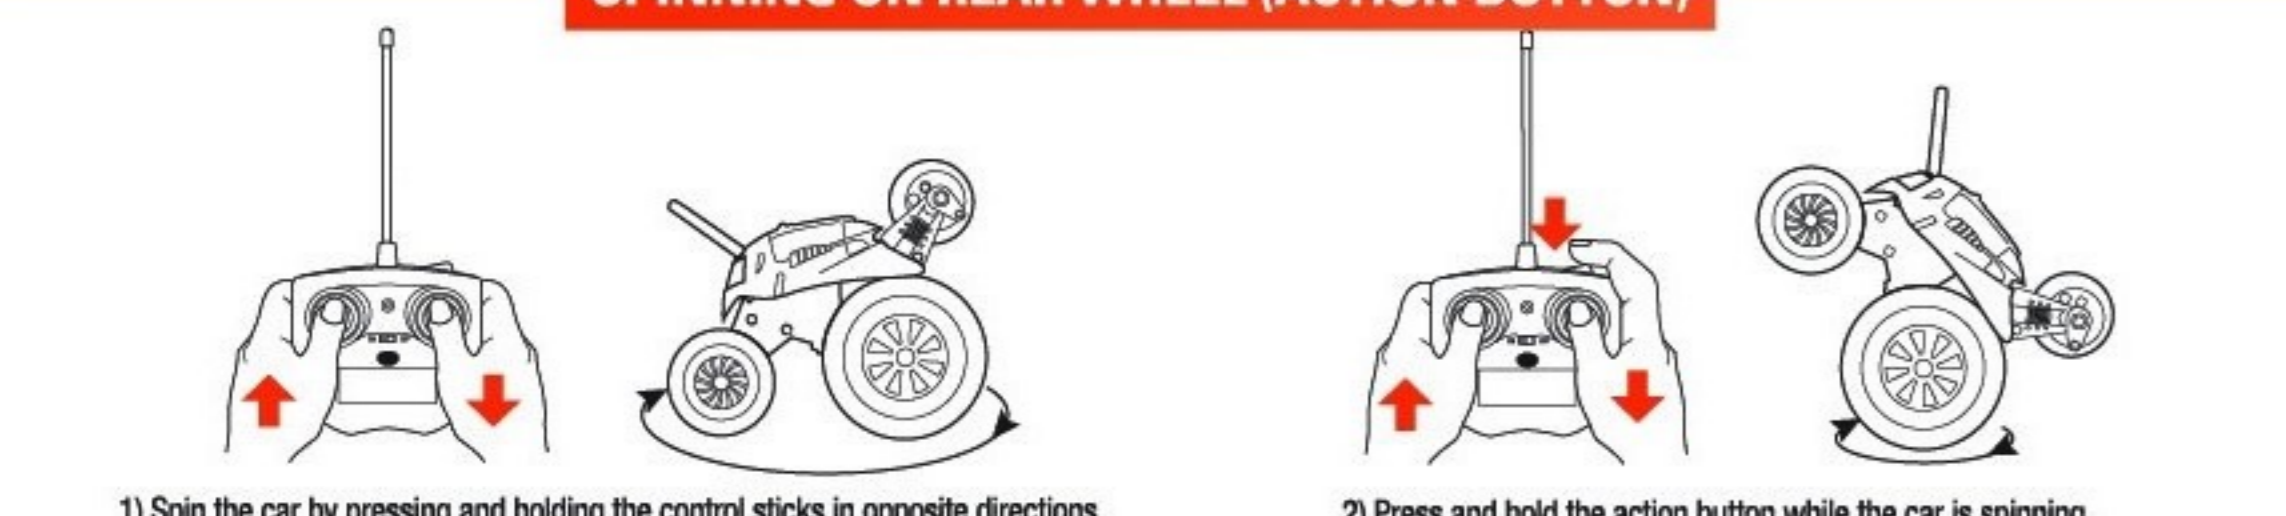

- Operation requires 4 "AA" 1.5V alkaline batteries (not included) for car and one 9V battery (not included) for remote control.
1. Carefully remove items from package.
 2. Locate the battery compartment on the back of each item (see diagram on right).
 3. Swivel latches on bottom of car to release battery pack and insert batteries.
 4. Switch both car and remote buttons to "ON" position.
 5. For best result use the car on hard surfaces such as wood or tile.

GENERAL CONTROLS

SPINNING ON REAR WHEEL (ACTION BUTTON)

SAFETY PRECAUTIONS

- Do not operate during thunderstorms or rain.
- Avoid water, sand and snow when operating car.
- Do not swimmer car or conduct in water.
- Never operate your car on the street or highway.
- Never operate your car in a confined or crowded area, and do not use people or animals as obstacles.
- Do not use your car on furniture, objects or hard surfaces, as this will cause damage to both the objects and the car.
- Keep fingers, feet and loose clothing away from the fans, gears and motor while the car is switched to "ON".
- Do not leave car or transmitter near sources of heat or under direct sunlight for long periods of time.
- Do not touch car or transmitter outside overnight. Darkness is harmful to interior components.
- Remove all batteries when not in use to avoid accidental operation.
- Adult supervision is recommended when operating this car.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

BATTERY WARNING:
Do not use rechargeable batteries or non-rechargeable lithium-ion batteries. Do not use batteries and battery packs of different brands and types together. Do not use batteries when not fully charged. Do not use damaged or defective batteries. Do not use batteries with different voltage ratings together. Do not use batteries with different capacities together. Do not use batteries with different internal resistances together. Do not use batteries with different internal temperatures together. Do not use batteries with different internal pressures together. Do not use batteries with different internal voltages together. Do not use batteries with different internal currents together. Do not use batteries with different internal frequencies together. Do not use batteries with different internal wavelengths together. Do not use batteries with different internal amplitudes together. Do not use batteries with different internal phases together. Do not use batteries with different internal periods together. Do not use batteries with different internal duty cycles together. Do not use batteries with different internal modulation schemes together. Do not use batteries with different internal coding schemes together. Do not use batteries with different internal protocols together. Do not use batteries with different internal standards together. Do not use batteries with different internal specifications together. Do not use batteries with different internal requirements together. Do not use batteries with different internal constraints together. Do not use batteries with different internal limitations together. Do not use batteries with different internal restrictions together. Do not use batteries with different internal prohibitions together. Do not use batteries with different internal permissions together. Do not use batteries with different internal permissions together.

THUNDER TUMBLER®

RADIO CONTROL 360° RALLY CAR

360 DEGREE SPINS AND OTHER STUNTS

2100 FREQUENCIES FOR COMPETITIVE RACING

BLUE HAT TOY COMPANY

WIRELESS RC ACTION!

BATTERY OPERATED PLAY VEHICLE

AGES 8 AND UP

WARNING! CHOKING HAZARD - Small parts. Not for children under 3 years.

THE FOLLOWING PERFORMANCE REQUIREMENTS: 27 MPH, 40 MIN.

AGES 6+

REAL LED LIGHTS!

360 DEGREE SPINS AND OTHER STUNTS

2100 FREQUENCIES FOR COMPETITIVE RACING

BLUE HAT TOY COMPANY

THUNDER TUMBLER®

RADIO CONTROL 360° RALLY CAR

EXCITING RC DRIVING ACTION!

- Spinning Stunt Vehicle with LED Lights
- Rotates 360 Degrees on a Single Wheel
- Full-Function Wireless Radio Control
- Available in 2 Frequencies for Competitive Racing

360 DEGREE SPINS AND OTHER STUNTS
