## 1 Label indication

The label will be positioned on the top of the metallic shield as shown in the following figure:

*Figure 1: EMB-LR1302-mPCIe label positioning.*

Please notice that if the FCC/IC identification number is not visible when the module is installed inside another device, the device into which the module is installed must display a label referring to the enclosed module. This exterior label can use wording such as the following: "Contains FCC ID: Z7H-EMBLR1302" or similar.

## 2 Disclaimer of liability

The user must read carefully all the documentation available before using the product. In particular, care must be taken in order to comply with the regulations (e.g., power limits, duty cycle limits, etc.).

### 2.1 Handling Precautions

This product is an ESD sensitive device. Handling precautions should be carefully observed.

### 2.2 Limitations

Every operation involving a modification on the internal components of the module will void the warranty.

### 2.3 Disclaimer of Liability

The information provided in this and other documents associated to the product might contain technical inaccuracies as well as typing errors. Regulations might also vary in time. Updates to these documents are performed periodically and the information provided in these manuals might change without notice. The user is required to ensure that the documentation is updated and the information contained is valid. Embit reserves the right to change any of the technical/functional specifications as well as to discontinue manufacture or support of any of its products without any written announcement.

### 2.4 Trademarks

Embit is a registered trademark owned by Embit s.r.l.

All other trademarks, registered trademarks and product names are the sole proprietary of their respective owners.
