

Cambium Networks

July 25th, 2017

To whom it may concern,

Cambium Networks is requesting Elite Engineering (TCB), file a change in identification with the FCC regarding FCC ID: Z8H89FT0033 per 2.933. This is a multi-layer Ethernet radio operating between 406MHz to 430MHz under part 90.

Original identification: PEJ93824283-Xeta4

November 6, 2013

Differs in external housing color: blue and labeled Cambium Networks (original Xetawave was green)
Original test results are still valid, representative and applicable to the product.
External Photos and label submitted.

Sincerely,

Steven M. Payne
R.F. Principle Staff Engineer
