The equipment is still representative of the FCC filings, also no change in design, circuitry or construction is involved. Labels will only be changed after authorization from the commission. Please note the engineering staff remains the same.

I am the person authorized to make these changes. I have been involved as technical contact/Regulatory Engineer throughout the above products lifecycles.

My grantee code is currently on file with the FCC on behalf of Cambium Networks (1299 East Algonquin Rd Schaumburg Illinois 60196).
