

## **SETUP PHOTOGRAPHS**

This document contains 11 photographs

**Photograph No.1**  
**Setup for emission field strength measurements in the anechoic chamber below 30 MHz,**  
**EUT with integral antennas**

**Photograph No.2**

**Setup for emission field strength measurements in the anechoic chamber below 30 MHz,  
EUT with external low frequency Door antenna**

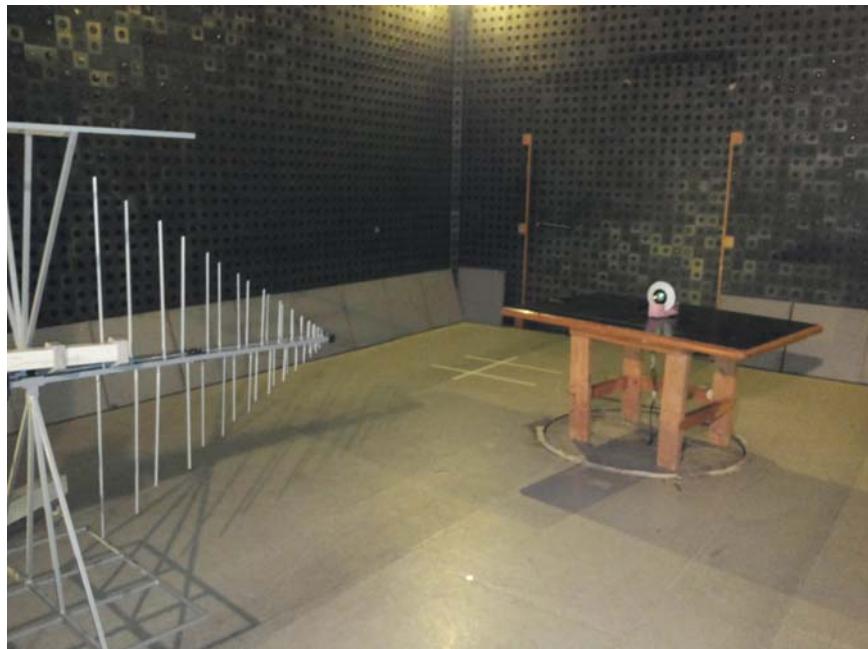

**Photograph No.3**

**Setup for fundamental and spurious emission field strength measurements in the anechoic chamber  
in 30 – 1000 MHz range, EUT in horizontal position**

**Photograph No.4**

**Setup for fundamental and spurious emission field strength measurements in the anechoic chamber  
in 30 – 1000 MHz range, EUT in vertical position**

**Photograph No.5**

**Setup for fundamental and spurious emission field strength measurements in the anechoic chamber  
in 30 – 1000 MHz range, EUT with external low frequency Door antenna**

**Photograph No.6**

**Setup for spurious emission field strength measurements in the anechoic chamber above1000 MHz**

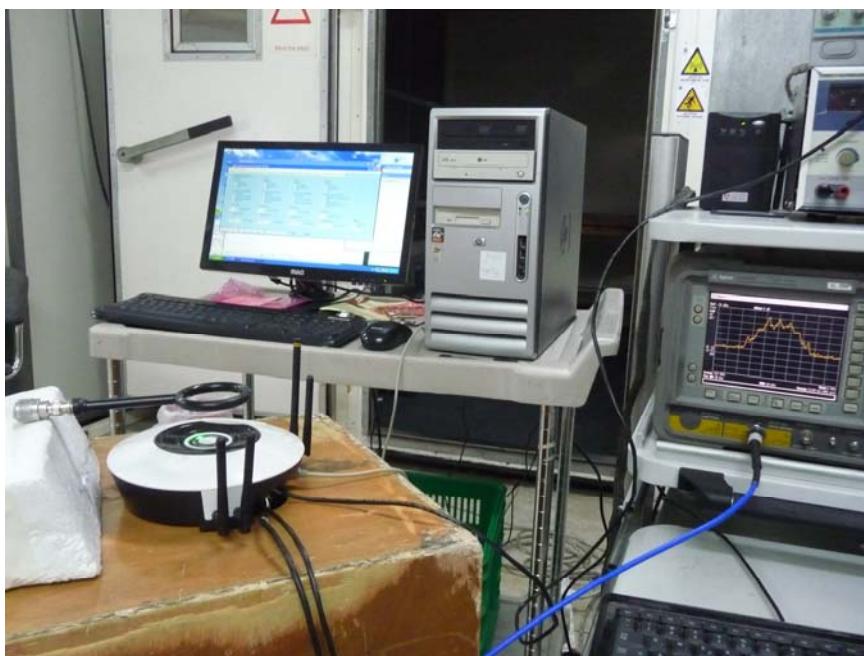

**Photograph No.7**  
**Setup for emission field strength measurements in the anechoic chamber,  
EUT with integral antennas**

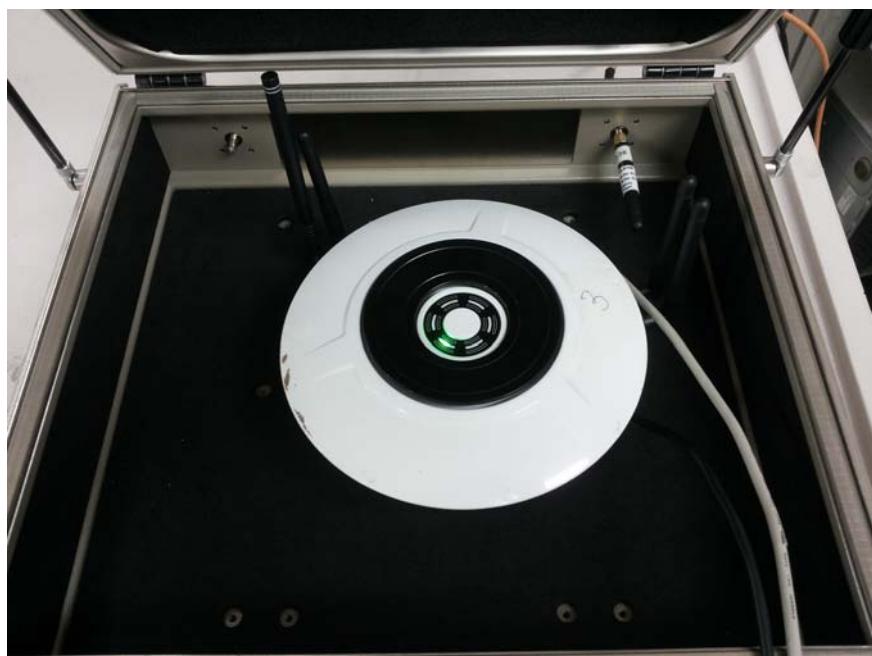

**Photograph No.8**  
**Setup for emission field strength measurements in the anechoic chamber,**  
**EUT with external low frequency Door antenna**

**Photograph No.9**  
**Setup for OBW measurements**

**Photograph No.10**  
**Setup for transmitter shut down test**

**Photograph No.11**  
**Setup for conducted emission measurements on the AC power lines**
