

EDIFIER

W360BT

Wearable Bluetooth Earbuds, Headphones, Earphones, Earbuds

Operating instructions

Section 1

Product introduction

Before using the headphone, please read this manual carefully and keep it safe for future reference.

■ Product features:

Modern ergonomic design streamlined for comfort and optimal fit

13mm moving coil ensures outstanding performance notably in mid-range and low frequencies

High quality CSR chip with Bluetooth V4.1 supports up to 10 meters in distance

Up to 20 hours of continuous play

Wired controller supports voice calls, makes volume adjustment and switches between music

Supports CVC voice noise reduction and HSP / HFP / A2DP / AVRCP protocols

Voice control wake up signal enabled

Able to connect two devices simultaneously

Comes with complete accessories kit

Specifications

Bluetooth version: Bluetooth V4.1

Bluetooth protocol: HSP / HFP / A2DP / AVRCP

Effective distance: 10m

Working time: 20 hours

Standby time: About 500 hours

Charging input: DC 5.0V 300mA

Charge time: about 2 hrs

Battery capacity: 300mAh

Frequency response: 20Hz-20KHz

Sound pressure level (SPL) : 106dB

Impedance: 32 Ω

Note: Any changes about design and specification, we will be without notice.

Section 2

■ Package list

Product and attachments illustration

Headphones*1 pcs

Portable bag*1 PCS

Manual*Warranty card 1 PCS each

USB charging cable*1 pcs

- Do not try to dismantle the product. If non-professional personnel operates, they may damage the product.
- Do not fall, vibrate strongly, strike the product with hard object to prevent damaging the internal circuit.
- Please do not use drastic chemical products and cleaner to clean the headphones.
- Do not use sharp objects to scratch on the product surface to prevent damaging the outer case and affecting looking.

If the product cannot work properly, please send it to your qualified repair units, the personnel shall help you solve your problem with their whole heart.

■ FAQs

1. The red light flashes instead of the blue light.

Answer: It means that the headphones battery is low. You need to recharge your headphones again.

2. The red light is off during charging.

Answer: a. Please ensure the charging device is properly connected with the headphones.

b. When the headphones are not used for a long time, the battery will enter the hibernate status. Now it

needs to charge about 30 minutes and then the red light shall be on.

3. The headphones hear nothing.

Answer: a. Ensure the volume of headphone is in an available level.

b. Ensure if the headphones are connected with mobile properly.

c. Ensure the headphones and mobile phone is in an effective distance and no other obstacle.

4. Headphone is not good for talking.

Answer: a. Please ensure if your mobile phone is in the area with strong signal.

b. The effective operational distance of the headphones is 10m. Please ensure the headphones are in effective operational distance and there is no obstacle between the headphones and your mobile.

5. Why can the headphones not pause, restore, last song and next song when playing music?

Answer: The function requires the device paired up with the headphones to support AVRCP (Audio/Video Remote Control Profile) protocol.

■ Warning!

To guarantee your personal safety, please do not wear or keep headphones in the vicinity (closer than 10cm) of a pacemaker.

Do not insert plug into electric sockets.

Supervise children when using the equipment, the product is not a toy.

Headphone listening at high volume levels – particularly, over extended periods of time – may damage your hearing.

The operation of switches on your hi-fi system or plugging in the headphones may cause clicks which at high volume setting may affect your hearing. Therefore, always set the volume control to minimum before switching between different sources (tuner, turntable, CD player, etc.) or plugging in the headphones.

For traffic safety, do not use headphones while driving or cycling.

安全注意事项：

Warning!

为保证您的人身安全，请勿将该耳机佩戴或放置在离心脏起搏器过近的位置(小于10CM)。
