Re: FCC ID: Z9O-92053026

To Whom It May Concern:

The following application is submitted on behalf of our client, Ecolab Inc., for evaluation of their model 92053026 for certification under FCC Parts 15.209, 15.231 and 15.249.

The equipment is a beacon for the Ecolab Inc. Patient Safeguard System (PSS) soap and sanitizer dispensers. The device includes three transceivers operating at 125 kHz, 433.9 MHz and 2405 MHz, respectively. The 433.9 MHz and 2405 MHz radios are capable of transmitting simultaneously and were evaluated for intermodulation products. The evaluation was performed for the module installed inside the Compact and Classic soap dispensers, respectively.

The EUT was evaluated in full to the aforementioned test requirements and was determined to be in compliance.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Sam Wismer". The signature is fluid and cursive, with the first name "Sam" being more prominent.
