

Exhibit 8 – User’s Manual – Installation instructions

Husqvarna Connectivity Device

FCC ID ZAS-HQ-CD1

IC: 23307-HQCD1

- Remove the bar nuts and the clutch cover.

Note: If the clutch cover is not easy to remove, tighten the bar nut, engage the chain brake and release. A click is heard if it is released correctly.

- Assemble the guide bar onto the bar bolts. Move the guide bar to its most rear position.
- Install the saw chain correctly around the drive sprocket and put it in the groove on the guide bar.

WARNING: Always use protective gloves when you assemble the saw chain.

- Make sure that the edges of the cutters point forward on the top edge of the guide bar.

- Align the hole in the guide bar with the chain adjuster pin and install the clutch cover.

- Tighten the bar nuts finger tight.
- Tighten the saw chain. Refer to *To adjust the tension of the saw chain on page 30* for instructions.
- Tighten the bar nuts.

Note: Some models have only 1 bar nut.

To install and remove the Husqvarna connectivity device

The Husqvarna connectivity device is an accessory that enables digital services from the Husqvarna Fleet Services™ app. Instruction on how to use the Husqvarna connectivity device are found in the Husqvarna Fleet Services™ app.

Note: The Husqvarna connectivity device has a built-in battery that cannot be replaced. Replace the Husqvarna connectivity device unit if it is necessary.

- Remove the cylinder cover.
- Put the Husqvarna connectivity device in the holder for the Husqvarna connectivity device.

- Attach the wires to the holder for the Husqvarna connectivity device.

- Put the holder for the Husqvarna connectivity device on the air filter holder and install the 2 screws.

- Connect the connector.

- Remove in the opposite sequence.

To assemble a spiked bumper

To assemble a spiked bumper, speak to your servicing dealer.

Operation

Introduction
