FCC

This device complies with part 15 of the FCC results.
Operation is subject to the following two conditions:
1. This device may not cause harmful interference and
2. This device must accept any interference received, including interference that may cause undesired operation.

Note: This Equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the Federal Communications Commission (FCC) rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1.1. Reorient or relocate the receiving antenna
1.2. Increase the separation between the equipment and receiver
1.3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
1.4. Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the manufacturer could void the user's authority operate the equipment.

RECHARGEABLE BATTERY

HOW TO CHARGE:
When the battery is low, the power indicator will flash green. Plug the included charging cable into the Keyboard's Type-C USB port, then plug the other end of the cable into a computer or USB wall adapter.
USE WHILE CHARGING:
While the Keyboard cannot be used by plugging directly into your computer, it can be used wirelessly while charging, Bluetooth connection will reset if the charging cable is unplugged.
Note: Please charge the battery before using until the red LED turns off. (~ 2~3 hours charge time)
