CONTENTS

FUNCTIONS

Note: The keypad layout function is based on iOS and MAC OS default settings. The output might differ for different OS.

ON / OFF

To turn the Keypad on or off, move the Power Switch on the top of the device to the "on" position (the switch will display a green label). The power indicator turns on for ~ 5 seconds and then turns off.

PAIRING MODE

To put the Keypad in Pairing Mode, press and hold the Connect Button for ~5 seconds, then release. The Pairing LED indicator will blink blue quickly.

Once the Keypad is paired, the blue light turn to solid blue for ~5 seconds and then turns off

To connect the Keypad to another device, hold the Connect Button for ~5 seconds to disconnect and entering in pairing mode again

SLEEP MODE:

When the Keypad is powered on but not in use for one hour, it will enter a battery-saving sleep mode. Please press any key to wake up

PAIRING: MAC

1. First, turn on the Keypad and put the Keypad in Pairing Mode

2. On your Mac, go to System Preference > Bluetooth. When "Satechi Bluetooth Keypad" shows, choose "Connect"

3. The blue LED will stop blinking, indicating successful pairing. Start using the Satechi Bluetooth Keypad

PAIRING: iOS

1. First, turn on the Keypad and put the Keypad in Pairing Mode

2. On your iOS device, go to Settings > Bluetooth. When "Satechi Bluetooth Keypad" shows, choose "Connect"

3. The blue LED will stop blinking, indicating successful pairing. Start using the Satechi Bluetooth Keypad

LED INDICATORS

CHARGING LED INDICATOR (RED)

The light turns on and stays solid red while charging. Then turns off once the Keypad is fully charged

POWER & PAIRING LED INDICATOR (BLUE)

Fast Blinking Blue > Keypad is in Pairing Mode.
Slow Blinking Blue > Keypad is low on battery.

RECHARGEABLE BATTERY

HOW TO CHARGE:

The Keypad is equipped with a rechargeable battery. When the battery is low, connect the Keypad to a computer or USB wall adapter using the included charging cable. It takes 2~3 hrs to reach a complete charge (until the red Charging LED turns off)

USE WHILE CHARGING:

While the Keypad cannot be used by plugging directly into your computer, it can be used wirelessly while charging

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
This device may not cause harmful interference, and
This device must accept any interference received, including interference that may cause undesired operation.
Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Satechi declares that this product is in compliance with the essential requirements and other relevant provisions of applicable EC directives. For
