**Fig. 9-1**

## **2. Other settings**

In the security settings, functions such as encryption setup, equipment management and credential storage can be added to the tablet PC.

## **8.3 Storage**

### **View storage settings**

1. Click the application icon to enter the settings application on the Homepage.
2. Click **Storage**.
3. View storage space of SD card.
4. View storage space of NAND FLASH.
5. View Scsi setup, which is the storage space of U disk.

### **Safe uninstall of SD card**

Safe removal of the SD card can effectively protect and prolong the service life of the SD card.

1. Click the application icon to enter the settings application on the Homepage.
2. Click **Storage**.
3. Click **Uninstall SD card**.
4. The system prompts that the SD card is safely removed.

**Tips:** the uninstall method for Scsi is as described above.

## **8.4 Date and Time**

### **Adjust the date, time and time zone**

- 
1. Click the application icon to enter the settings application on the Homepage.
  2. Scroll down the screen and then click the **Date and time settings**.
  3. Click **Select time zone** to select the one you want. Scroll down the list to see more time zones.
  4. Click **Set date**, then click the up button or the down button to adjust the date, month and year, and click **Settings** when finish.
  5. Click **Set time**, then click the up button or the down button to adjust hours and minutes, click AM or PM to change between morning and afternoon. Click **Settings** to complete.
  6. Select 24-hour check box to switch between 12-hour and 24-hour. Selected time format will be applied to the alarm clock.
  7. Click **Select date format** and then select the date format to be displayed on the Tablet.
  8. You can choose **Automatically determine date and time**, which automatically uses the time from the network, so effective network is required.

## 8.5 Language and Input Method

### Select language for the device

1. Press the Menu key to pop up Settings menu on the Homepage.
2. Click **Settings**.
3. Click **Language and Input Method**
4. Click **Select language areas** and choose the language you need.

### Keyboard and input method

The default input keyboard is the Android keyboard, and you can select your favorite keyboard and input method by installing third-party software.

## 8.6 About Tablet PC

### View Tablet status

1. Click the application icon to enter the settings application on the Homepage.
2. Click **About Tablet PC**.
3. Click **Status Message** to view the **Battery status**, **Network status**, **Bluetooth address**, **Serial number and Running time**, etc.

### System Update

1. Click the application icon to enter the settings application on the Homepage.
2. Click **About Tablet PC**.
3. Click **System Update**.
4. If the window shows this is the latest version, there is no need to update.
5. If the window prompts to download the new version, click **Download**. **(Ensure the device is equipped with the TF card before download, the system automatically downloads the update package into TF)**

### View system version

- 
1. Click the application icon to enter the settings application on the Homepage.
  2. Click **About Device**.
  3. View **Tablet model**, **Android version**, **Firmware version** and **Build-in version**, etc.

## 9 System Upgrade

### 9.1 System Upgrade Preparation

#### **Download upgrade program**

You can download the software upgrade package from websites, which is used to upgrade the system version of the Tablet.

#### **System Upgrade Preparation:**

1. Download the system upgrade package from relevant websites to your computer.
2. Prepare the system upgrade tool: a TF card with storage capacity  $\geq 512\text{MB}$ .

### 9.2 Restore Factory Settings

When significant error occurs or the unlock password is forgotten, factory settings can be restored by resetting. The restore of the factory settings will lead to the **lost of** downloaded applications and user setups, so do remember to **back up** your data.

1. Press the Menu key to pop up Settings menu on Homepage.
2. Click **Settings**.
3. Click **Backup and Reset**.
4. Click **Restore Factory Settings**.
5. Click **Restore Tablet PC**.
6. Wait for system rebooting.

### Cautionary note

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions,

---

may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End user must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The portable device is designed to meet the requirements for exposure to radio waves established by the Federal Communications Commission (USA). These requirements set a SAR limit of 1.6 W/kg averaged over one gram of tissue. The highest SAR value reported under this standard during product certification for use when properly worn on the body

#### Warnings:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
