CONFIGURAÇÃO

XBOX ONE

- 01 Pressione sem soltar o botão de ligação à sua Xbox One. O botão está localizado no lado esquerdo da consola. Se tiver uma versão 'S' ou 'X', o botão está na frente no canto inferior direito.
- 02 O logótipo Xbox na consola começa a piscar
- 03 Com o auscultador desligado, pressione sem soltar o botão de alimentação Arctis 9X  durante 6 segundos. Este liga à Xbox e irá ver a mensagem 'Headset Assigned' (auscultador atribuído) no ecrã.

BANDANA DE ÓCULOS DE ESQUI

Instalação

Direção de instalação de bandana

Velcro

Aperte ou desaperte as correias de Velcro nas laterais da bandana para ajustar conforme desejado

bandanas acessórios disponíveis em steelseries.com

BOTÃO LIGAR/DESLIGAR

Para ligar o auscultador pressione sem soltar o botão de alimentação (09) durante, pelo menos, 3 segundos. Ouvirá um sinal sonoro e o botão de alimentação (09) acende-se.

Para desligar o auscultador pressione sem soltar o botão de alimentação (09) durante, pelo menos, 3 segundos.

BLUETOOTH

EMPARELHAMENTO

- 01 Com o auscultador ligado, pressione sem soltar o botão Bluetooth (08) durante 6 segundos. O LED do auscultador pisca rapidamente azul.
- 02 Nas definições de Bluetooth do seu dispositivo, verifique se existem dispositivos disponíveis e selecione 'Arctis 9X'

CONTROLO

Atender/terminar uma chamada de voz pressione o botão Bluetooth uma vez (08)

Reproduzir/pausar música pressione o botão Bluetooth uma vez (08)

Faixa seguinte pressione o botão Bluetooth duas vezes (08)

Faixa anterior pressione o botão Bluetooth três vezes (08)

CARGA

Para carregar o auscultador, ligue o cabo micro-USB (04) à tomada micro-USB (05) no auscultador e ligue a outra extremidade a qualquer fonte de alimentação USB.

A cor do botão de alimentação (09) indica o nível da bateria.

Verde	100 – 50%
Amarelo	49 – 20%
Vermelho	19 – 10%
Vermelho (intermitente rápido)	9 – 1%

REGULATORY

Europe – EU Declaration of Conformity

Hereby, SteelSeries ApS. declares that the equipment which is compliance with directive RoHS 2.0 (2015/863/EU), R.E.D (2014/53/EU), EMC Directive (2014/30/EU), and LVD (2014/35/EU) which are issued by the Commission of the European Community.

The full text of the EU declaration of conformity is available at the following internet address: <https://steelseries.com/>

SteelSeries ApS. hereby confirms, to date, based on the feedback from our suppliers indicates that our products shipping to the EU territory comply with REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals - (EC) 1907/2006) compliance program. We are fully committed to offering REACH compliance on the products and posting accurate REACH compliance status for the all of products.

Frequency bands and Powers

a. Frequency band(s) in which the radio equipment operates:

-BT and WIFI: 2.400 - 2.4835 GHz; 5.180 – 5.825 GHz

b. Maximum radio-frequency power transmitted in the frequency band(s) in which the radio equipment operates:

-BT: QPSK: 9.85 dBm

-WIFI: HT20: 8.67 dBm (2.400 - 2.4835 GHz)

-WIFI: HT20: 11.40 dBm (5.180 - 5.825 GHz)

c. Software Version: R00010

Operations in the 5.18 - 5.825 GHz band are restricted to indoor usage only.

Operating Temperature: 0 to + 40 °C.

WEEE

This product must not be disposed of with your other household waste or treat them in compliance with the local regulations or contact your local city office, your household waste disposal service or the shop where you purchased the product.

Safety Guideline for Lithium Battery

This battery must not be disposed of with your other household waste or treat them in compliance with the local regulations or contact your local city office, your household waste disposal service or the shop where you purchased the product.

“CAUTION!” Risk of explosion if battery pack is not replace by same type as specified by the manufacturer.

Please keep follow all listed important warnings and cautions below while using this battery pack to avoid any damage or hazard.

1. The battery polarity (+) and (-) shall not be connected and charged reversely. Risk of explosion if the battery polarity (+) and (-) is reversed.
2. Please keep this battery pack away from fire and high heat sources due to explosion might happen. Do not place your battery pack close to any heater or hot location.
3. This battery pack shall not be hit or impacted. This battery pack shall not be dealt with any sharp or keen objects either.
4. This battery pack shall not be exposed to moisture, dripping or splashing.
5. If any electrolyte flow out of this battery pack when touch the user's eyes and skin, please seek medical advice immediately.

Federal Communication Commission Interference Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Radiation Exposure Statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Headset FCC ID: ZHK-HS00019

Industry Canada Statement:

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

- 1) this device may not cause interference, and
 - 2) this device must accept any interference, including interference that may cause undesired operation of the device.
- Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:
- 1) l'appareil ne doit pas produire de brouillage, et
 - 2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter, except tested built-in radios.

Cet appareil et son antenne ne doivent pas être situés ou fonctionner en conjonction avec une autre antenne ou un autre émetteur, exception faites des radios intégrées qui ont été testées.

The County Code Selection feature is disabled for products marketed in the US/ Canada.

La fonction de sélection de l'indicatif du pays est désactivée pour les produits commercialisés aux États-Unis et au Canada.

Headset IC: 9638A-HS00019

Radiation Exposure Statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Déclaration d'exposition aux radiations:

L'appareil a été évalué pour répondre aux exigences générales d'exposition aux radiofréquences.

L'appareil peut être utilisé en condition d'exposition portable sans restriction.

The device for the band 5150-5250 MHz is only for indoor usage to reduce potential for harmful interference to co-channel mobile satellite systems.

les dispositifs fonctionnant dans la bande 5150-5250 MHz sont réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux.
