

### **Product Description:**

- \* 3 buttons 2.4G Wireless Mouse
- \* Stylish design
- \*Color: Black/Gray/Pink/Purple
- \* Silent click for Left & Right button
- \* DPI: 1000
- \*Polling rate: 125Hz
- \* Materials: ABS
- \* Size: 100\*58\*38mm
- \* Weight: 50g
- \*Working Voltage: 3V
- \*Working current: 100mA
- \*Accelerated speed: 5G
- \*Keying force: 65-75gf
- \* Battery: 1\*AA (excluding)
- \*Battery lifetime: two million times
- \*Cable: USB+Tpye-C
- \* Plug and play

### **System Requirements:**

Supports: Windows 10, Windows 8, Windows 7, Windows Vista, Windows XP, MAC

### **Keys function:**

- 1. Left button**
- 2. Right button**
- 3. Scroll wheel**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
