Health and Safety Warnings

Battery-Powered Devices
Use of rechargeable or disposable batteries in an improper manner may result in battery fluid leakage, overheating or explosion. Battery fluid is corrosive, may be toxic, can cause skin and eye burns, and is harmful if swallowed. Radio Frequency Technical Specifications: 2.4 GHz Devices Non-specific short range device. RF output power meets all SRD requirements.

⚠ Warning Improper setup, use and care of this product can increase the risk of serious injury death or device damage. Read and keep this guide and all other printed guides for future reference. For updated guides or replacements go to golifeworks.com

⚠ Do Not Attempt Repairs. Do not attempt to take apart, open, repair, service or modify the device(s). Doing so may risk electric shock or other hazard. Evidence of any attempt to open or modify the device, including any peeling, puncture or removal of labels, will void the Limited+Lifetime Warranty.

Safety Instructions
• Keep the keyboard away from sharp objects that could damage it.
• Do not put heavy objects on the keyboard.
• Do not stretch, twist or apply force to the keyboard.
• To clean the keyboard, gently wipe it using a moist cotton cloth.
• Make sure the keyboard is turned off before cleaning. Do not use liquid cleanser.

FCC Statement

This device complies with part 15 of FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction guide, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and the receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult a service representative for help.
Properly shielded and grounded cables and connectors must be used in order to comply with FCC emission limits. LifeWorks is not responsible for any radio or television interference caused by using other than recommended cables and connectors or by unauthorized changes or modifications to this equipment. Unauthorized changes or modifications could void the user's authority to operate the equipment.

4

Operation

Installation Steps:
1. Slide off battery cover
2. Insert AA battery into the battery compartment (back of keyboard) and put cover back on
3. Switch keyboard on
4. Connect nano USB receiver to an available USB port on your computer. The keyboard and mouse automatically connect to the USB receiver. Power indicator will flash red, then it is connected successfully.
5. Start using your trackpad keyboard!

NOTE: if keyboard fails to connect, press ESC+K, forcing it to enter pairing mode.

Tips and Troubleshooting

Tips
• Auto-sleep and power saving function: The keyboard will enter sleep mode when idle for 10 minutes. To activate it, press any key and wait for 3 seconds.
• Please turn off the power if you're traveling or not using the keyboard for a long time.

Troubleshooting
• Ensure the USB nano receiver is connected to your computer. If it is, try connecting it to a different USB port.
• Ensure that the batteries are charged and inserted correctly.
• Ensure that the sensor on the bottom of the mouse is clean.
• Restart your computer.
• If keyboard fails to connect, press ESC+K, forcing it to enter pairing mode.
