● **Function Overview:**

Thanks for buying our new generation of multi-functional combination audio!

This combination audio is manufactured with various functions of perfect tone quality, high reliability and fashionable appearance as a masterly product. You are expected to share the excellent satisfaction launched by the digital era.

This combination audio is integrated with powerful multi-functions and fashion and we have listed some of its major functions and characteristics for you to know it in a better way:

- * Bluetooth
- * AUX external input
- * Sound effects of FLAT, ROCK, POP, CLASS and JAZZ
- * Remote control

● **Precautions for Use**

First thanks for buying the digital combination audio produced by this company!

Please refer to this User's Specification before use to use it properly.

The contents stated herein may be modified from time to time for better service as the product properties and functions are changed and this company will not notify you otherwise.

For the sound performances of the product, never use it in too cold, too hot, too dusty or humid places, especially:

1. Moist or underwater conditions
2. Near the heater or hi-temperature services
3. Solarization
4. Places apt to fall
5. Never disassemble the combination audio; otherwise, it may invalidate the warranty.

● **Warnings:**

1. Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.

2. Where the mains plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

[This USB interface of this product is only for charging purpose without data exchange function](#)

Output power: Output Level 2 and 10 meters as the maximum connecting distance
Operating frequency range: 2.402GHz-2.480GHz unlicensed ISM band
Profiles supported: HSP, HFP 1.5, A2DP and AVRCP Profiles

Mobile phones supported:

iPad 1
iPad 2
iPad 3
iPhone 4
iPhone 4S
iPhone 3G
iPhone 3GS
NOKIA N95
NOKIA N78
Android OS
NOKIA 5800
NOKIA 6110
NOKIA 5300

NOKIA 6230
Blackberry 8310
Blackberry 9700
SAMSUNG Galaxy
SAMSUNG gt-s5628
Sony Ericsson W910i

Remarks: Apart from the above-mentioned mobile phone supported, it also supports the device with Bluetooth music play function in theory!

● **Accessories:**

- 1) One User's Specification
- 2) One AUX wire
- 3) One MICRO USB cable
- 4) One power adapter
- 5) One remote controller
