Re: FCC and IC signature authorization

Applicant: GE Appliance & Lighting

FCC ID: ZKJ-DSM04R01

To whom it may concern,

Family Listing

I hereby state that only difference between GE Appliances part numbers 265D1887G001, 26D1887G002 and 265D1887G004 are the type of data connectors that are present on the PCB.

A handwritten signature in black ink, appearing to read 'R. Bult', is written over the printed name.
