Ref: FCC Class II Permissive change for FCC ID: ZKJ-WCATC001

Applicant: Haier US Appliance Solutions, Inc.

Dear Examiner,

This is to request a Class II Permissive change for FCC ID: ZKJ-WCATC001 originally granted on 03/04/2019.

There are some minor changes to improve power stability, and there is no change in the operating voltage level.

- 1) Changed the buck boost converter and regulator products that convert the power level.
- 2) The two input power sources are completely separated by using a load switch.

Except for the mentioned changes, has identical PCB layout, antenna, SW implementation for Wi-Fi.

Except for the mentioned changes, the device remains electrically, Software Configuration and mechanically identical to the originally certified device and no changes have been made.

Sincerely,

A handwritten signature in black ink, appearing to read 'Park Hansung'.
