

# Statement

We MICRON ELECTRONICS LLC declare under our sole responsibility that the product (with one USB port):

Product name: GSM Tracker

Trade name: PRIME

Type or model: PR100

The USB Port is only for charger, and can not do data communication with PC, which was performed as follow:

The customer will only have the charging cable without any communication function with PC other than charging. There will be two pins on the Micro USB side of charging cable, one is +5V DC and the other one is GND.
