

11. SETUP PHOTOS

RADIATED AND POWERLINE CONDUCTED EMISSIONS MEASUREMENT SETUP	
A photograph of a white, rectangular test chamber with a blue cross on its front face, positioned in the center of an anechoic chamber. The chamber is surrounded by white absorbers and a red antenna structure is visible in the background.	A photograph showing the back of the white test chamber with a blue cross on its top surface. The chamber is in the center of the anechoic chamber, with a red antenna structure and other equipment visible in the background.
A photograph of the white test chamber from a side angle, showing its front face. The chamber is in the center of the anechoic chamber, with a red antenna structure visible in the background.	A photograph showing the back of the white test chamber with a blue cross on its top surface. The chamber is in the center of the anechoic chamber, with a red antenna structure and other equipment visible in the background.
A photograph of a yellow table with a black device on it, connected to a power source. The table is in a laboratory setting with a grey wall and a power outlet visible.	A photograph showing a side view of the yellow table with a black device on it, connected to a power source. The table is in a laboratory setting with a grey wall and a power outlet visible.
