

11. SETUP PHOTOS

RADIATED AND POWERLINE CONDUCTED EMISSIONS MEASUREMENT SETUP	
A photograph showing a white rectangular test object with a blue cross on its front face, positioned on a metal floor inside an anechoic chamber. The chamber walls are lined with white electromagnetic absorbers.	A photograph showing the back of the white rectangular test object, also with a blue cross, inside the anechoic chamber. A red antenna structure is visible in the background.
A photograph showing the front of the white rectangular test object inside the anechoic chamber. A red antenna structure is visible in the background.	A photograph showing the back of the white rectangular test object inside the anechoic chamber. A red antenna structure is visible in the background.
A photograph showing a yellow table surface with a black device and cables on it, representing the line conducted emissions setup.	A photograph showing a side view of the yellow table surface with a black device and cables, representing the line conducted emissions setup.
