

### 11. SETUP PHOTOS

RADIATED AND POWERLINE CONDUCTED EMISSIONS MEASUREMENT SETUP	
A photograph of a white, rectangular test chamber inside an anechoic chamber. The chamber is positioned on a circular turntable. Red metal rods are visible on the floor in front of the chamber. The walls of the chamber are lined with black electromagnetic absorbers.	A photograph showing the back of the white test chamber. It is surrounded by black electromagnetic absorbers. A red metal structure is visible in the background.
A photograph of the white test chamber with a blue crosshair marked on its front face. The chamber is surrounded by black electromagnetic absorbers. UL logos are visible on the walls of the chamber.	A photograph showing the back of the white test chamber with various cables and equipment connected to it. The chamber is surrounded by black electromagnetic absorbers.
A photograph of a yellow table with a white power cord plugged into a power strip. A black power supply unit is visible on the floor next to the table.	A photograph showing a side view of the yellow table. A white power cord is plugged into a power strip on the table. A black power supply unit is visible on the floor.
