Ref: FCC Class II Permissive change for FCC ID: ZNFLS840
(Original Grant date: 01/09/2012)
Applicant: LG Electronics MobileComm U.S.A., Inc.

Dear Examiner,

This is to request a Class II permissive change for FCC ID: ZNFLS840, originally granted on 01/09/2012.

The ZNFLS840 was previously certified with CDMA B0/B1/B10, LTE band 25(ch.Bandwidth = 5Mhz only).

We would like to revise SW firmware to use LTE bandwidth 10 MHz in LTE Band 25.

This firmware is set at the factory and it can not be changed by 3rd party or end-user.

Except this change, the design, hardware and implementation are exactly same with original.

This firmware/software change will not be deployed to units already in the field

If you have any questions regarding this application, please feel free to contact me.

Sincerely yours,

Jacob Cho
Director
On behalf of LG Electronics MobileComm U.S.A, Inc.
