RE: Compex module for RM-24 & AP25

I confirm that VNL product , RM-24 & ,AP25 uses the Compex Module WLM200N2-26 without hardware and configuration changes. The TX power level is reduced for meeting FCC EIRP requirements when high gain antenna used is 18 dBi typical & SW will enable only to operate on channel 1-11 from 2412-2462MHz in USA

Sincerely,

A handwritten signature in blue ink, appearing to read 'Dhruv' or 'Dhruvi', is written over a light blue rectangular background.

DS Nagi

Associate Vice President
