Attention: Application Examiner

Re: Request for confidentiality

Applicant: PCB Piezotronics, Inc.

FCC ID: ZOC-IMI670A01

To whom it may concern:

Permanent Confidentiality

Request is hereby submitted by PCB Piezotronics, Inc. to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- **Schematics**
- **Detailed Block diagrams**
- **Detailed Operational/Functional Description**
- **Internal photos**
 - Note : The circuit boards in the unit are covered in epoxy.

Rationale for request for confidentiality:

PCB Piezotronics, Inc. has invested considerable time, materials and expense in research and development to produce the referenced product. The materials and information listed above constitute confidential trade secrets of PCB Piezotronics, Inc. pursuant to 47 CFR 0.457(d) of the FCC Rules. These trade secrets are not generally available to the public and we ask that they continue to be withheld from public inspection. We also ask that the internal photos identified above be held confidential as they are enclosed in epoxy. The circuit boards would be destroyed if this epoxy was removed and PCB Piezotronics, Inc. considers these internal photos to be confidential trade secrets.

Disclosure of the permanently confidential portions of this application to the general public, including our competitors, would not only give our competitors significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading-edge technology developed by PCB Piezotronics, Inc.

Sincerely,
Joseph Marris

Secretary & General Counsel
PCB Piezotronics, Inc.
