To Whom It May Concern:

Subject: Validity of Test Results from Testing / Certification of the integrated Module

WE, Verizon Telematics Inc., 2002 Summit Blvd., Atlanta, GA 30319;

confirm that the results from conducted testing applied for initial FCC certification (2011-04-29) and class 2 permissive change (2013-08-25) of the

Sierra Wireless 850/1900MHz CDMA2000 radio module SL3010T (initially SL5011) with FCC-ID: N7NSL5011

which is incorporated into our host equipment

model no. AT-150, with FCC ID: ZOQAT-150,

and as reported in the respective module test test reports

Sierra Wireless "SL5011 Test Report for FCC and IC Certifications", February 18, 2011
and

Sierra Wireless "SL3010T Test Report for FCC", August 22, 2013
accurately represent the test results under the new conditions when the identified radio module is integrated in the identified host equipment.

By integration of the said radio modules into the identified host equipment no changes were made to it or by external adaptation circuitry that impacts the validity of the conducted results of the original module's test reports.

For Verizon Telematics Inc.,

Bryant Elliott
Senior Director of Engineering
