Fax 404.573.5827

**To Whom It May Concern:**

**Subject: Validity of Test Results from Testing / Certification of Sister Product**

WE, Verizon Telematics Inc., 2002 Summit Blvd.; Atlanta, GA 30319;

confirm that the Bluetooth portion of our product

model no. AT-250, with FCC ID: ZOQAT-250 and IC: 9734A-AT250,

is identical to the Bluetooth portion of the previously FCC/IC approved sister product

model no. AT-100, with FCC ID: ZOQAT-100 and IC: 9734A-AT-100;

For this reason the conducted results from FCC part 15.247 / IC RSS-210 testing of model AT-150 and as documented in

Test Report no. G0M-1105-1155-P-15, issued on August 26, 2011 by Eurofins Product Service GmbH, Germany;

can be considered to be valid for model AT-250 as well.

Documentation proving the equality of the Bluetooth portion of both models will be part of the filing exhibits.

For Verizon Telematics Inc.,

Bryant Elliott  
Senior Director of Engineering

Date: March 6, 2014

A handwritten signature in blue ink that reads "Bryant Elliott".
