

There are 2 types of labels. One is LABEL(Case 1) and another is LABEL(Case 2).
 Because it will take long time to prepare the LABEL(Case 2), it cannot be affixed on CHC-S2145-5 for the initial period of time.
 So, the LABEL(Case 1) is used till the LABEL(Case 2) is prepared.

LABEL

Case1

DIGITAL PHOTO PRINTER 数码照片打印机		This device complies with Part 15 of the FCC rules. Operation is subject to following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This Class A digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe A est conforme à la norme NHB-003 du Canada.
MODEL/型号 CHC-S2145-5 AC 100 - 240 V 4.8 A 50 / 60 Hz		
UL LISTED I.T.E. 9K18 E146748	CE	This device is a Class A information technology device. This device is designed for use in a home environment and may cause radio frequency interference. In this case, the user is required to take appropriate measures. VCCI-A
