

## LIMITED SINGLE MODULAR APPROVAL REQUEST: NFC 12V Reader - FCC ID ZQWGIT000004

Please accept our request for Limited Single Modular Approval in accordance with the requirements of 15.212 as described below

15.212 (a)(1) Single modular transmitters must meet the following requirements to obtain a modular transmitter approval to use in the grantee's own wellness machines.

1. This module does not have its own shielding and it is a Limited Modular Approval to use in the grantee's own physical exercises machines.
2. This module has data buffer. Data input to Modular transmitter is controlled as not generating excessive data speed and abnormal modulation.
3. This module is equipped with a power supply regulator
4. This Module has a dedicated antenna that is soldered to the PCB. No other antenna except ones that were tested can be used in the equipment and the end user can not easily use an unapproved antenna
5. For the conducted and radiated emission, this module was tested outside of the machine in the final configuration with the power supply, cable and location as this is representative of a typical installation.
6. The final physical exercises machines will be labeled with " Contains FCC ID ZQWGIT000004"
7. This module complies with requirements of part 15.207 for AC power line conducted emission and part 15.225 for operation in 13.56 Mhz frequency band and must only be used with the internal PCB antenna.
8. This module complies with FCC rule part 2.1091 for RF exposure requirement for mobile devices that generally must be used with a separation distance of at least 20 centimeters between the transmitter's radiating structure and the body of the user or nearby persons.
