Quick Guide

English

- For more information**
 - Read the quick guide to packing box.
 - Open additional services and enjoy following services:
 - Scan QR code
 - Watch through various channels such as additional, intelligent monitoring and controlling, manual service, update functions. In addition, you can search items, voice search, and voice playback.
 - Open Settings About CellPhone (See Parameters, cover) for information.
 - You will through various channels such as additional, intelligent monitoring and controlling, manual service, control feedback. In addition, you can search items, voice search, and voice playback.
- CellPhone appearance**

- Card insertion guidance**
 - Tip:
 - Pay attention to card direction in writing card and keep the card slotted horizontal.
 - Please use the standard Nano-SIM card, insertion of wrong SIM card may damage the SIM card itself.
 - Please care and use using the card needs to take of absorption force or damaging the cellPhone.
 - Please the card needs out of the reach of children to prevent them reaching or using it.
- Double tap settings**

 - 1. Start up the cellPhone properly in long touch of power button.
 - 2. Follow screen for set more services.

Settings Card management choose 3D SIM card function and reset to 3D mode.
- Safety information**
 - **Component** or **incorrect power usage**, charge, and battery may cause fire, explosion, or other hazards.
 - **Do** the operations specified by the manufacturer and marked with this type can

be used. Other types of accessories may cause accidents and reduce the working and safety related capabilities. Please contact with authorized service center for replacement accessories.

• **Basic** do not use high volume for long time to protect hearing.

• **Basic** use the device at the temperature from 0°C (32°F) and above to 40°C (104°F) and its accessories at the temperature from 0°C (32°F). The high or low temperature may cause device failure.

• **Do not** expose the device or battery to high temperature (heat) or heat-producing equipment, such as grinders, heater, incandescent lamps, water heaters, etc., battery overheating may cause fire or explosion.

• **Do not** drop the device, cover (case) should be excluded of force, rear cover (battery cover) should be changed with the device, and using it when it is charged with AC power.

• **Do not** disassemble the device with non-removable internal battery, do not replace the battery or case of battery or device damage. The battery can be only replaced by authorized service center.

• **Do not** disassemble, battery, and other accessories should be disposed in accordance with local regulations instead of treating them as common garbage, however battery treatment may cause battery explosion.

6. **Privacy protection**

• **Logging** services and systems with unauthorized identity software may cause additional risks or personal information leakage.

• **Do not** repairing and downloading of malware or software are recommended.

• **Basic** do not use personal information before accepting an user personal information may be removed.

7. **Safety standards**

• **Content** of the harmful substance in this homogeneous material is below the limit of RoHS (2002) standard.

• **The** harmful substance content in this homogeneous material at least exceeds the limit of RoHS (2002) standard, however there is no other alternative in present. This is in line with environmental protection requirements of EU RoHS.

• **The** lifetime of this type cellPhone may be normal life span of 20 years. Some accessories may also have the RoHS logo and the number in the type grade. This content may not include all the accessories due to different types, and it shall be subject to the actual configuration.

Name and Content of harmful substance		Harmful substance					
Substance	Unit	RoHS	REACH	RoHS	PBB	PBDE	
Shell	kg	0	0	0	0	0	
Display	kg	0	0	0	0	0	
Charger	kg	0	0	0	0	0	
Earphone	kg	0	0	0	0	0	
Battery	kg	0	0	0	0	0	
Cable	kg	0	0	0	0	0	

The table is completed according to EU 2011/654

SAR

Specific Absorption Rate (SAR) Information

The Federal PC meets the government requirements for exposure to radio waves. The guidelines are based on standards set and developed by independent scientific organizations through research and through evaluation of scientific studies. The exposure limits are conservative safety margin designed to assure the safety of all persons regardless of age or health. FCC RF Exposure Information and Statement of FCC's Intent of SAR (FCC) is available on our web page of www.fcc.gov.

Device type: Smartphone (FCC ID: 259949) has also been tested against the SAR test. This device was tested for specific SAR exposure with the location of the phone held 15mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a three separation distance between the device body and the user or the phone. The use of ear dock, headset and other accessories should not contain metallic components or its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

FCC Warning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to a different power outlet to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any change or modification to this device not explicitly approved by manufacturer could void your authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
