Dear Sir or Madam:

The RF chip, model MT6572 , installed in FCC ID: ZSW-AX650-AX524 supports GSM, GPRS and EGPRS (EDGE) functions and the BT chip, model MT6627, supports BT3.0, EDR and BT4.0 functions. For use in the US the RF chip will not support/enable the EGPRS (EDGE)-TX function and the BT chip will not support/enable the BT4.0 function. The EGPRS (EDGE)-TX and the BT4.0 function have been shielded by the manufacturer using the software.

Best Regards,  
*For and on behalf of*
