FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.

The device complies with Canadian Interference (Interférences) that comply with Interference, Science and Economic Development Canada's (Interférence) (ICES). Operation is subject to the following two conditions:
1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

NOTE: L'équipement a été testé et trouvé conforme aux limites pour un appareil numérique de classe B, conformément à la partie 15 des Règles de la Commission canadienne de réglementation des ondes radioélectriques (CNR). Ces limites sont conçues pour offrir une protection raisonnable contre les interférences nuisibles dans une installation résidentielle. Cet équipement génère, utilise et peut émettre de l'énergie radioélectrique et, s'il n'est pas installé et utilisé conformément aux instructions, peut causer des interférences nuisibles aux communications radio. Cependant, aucune garantie n'est donnée quant à ce que les interférences nuisibles ne se produiront pas dans une installation particulière. Si cet équipement cause des interférences nuisibles à la réception radio ou télévisuelle, ce qui peut être déterminé en éteignant l'équipement et en le rallumant, l'utilisateur est encouragé d'essayer de corriger les interférences en utilisant une ou plusieurs des mesures suivantes :

- 1. Réorienter ou relocaliser l'antenne réceptrice.
- 2. Augmenter la séparation entre l'équipement et le récepteur.
- 3. Brancher l'équipement sur un circuit différent de celui auquel le récepteur est branché.
- 4. Consulter le revendeur ou un technicien expérimenté en radio/TV pour obtenir de l'aide.

Cette équipement est conforme aux limites d'exposition radioélectrique établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et toute partie de votre corps.

L'appareil est conforme aux limites d'exposition radioélectrique établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et toute partie de votre corps.

Prenez garde : L'utilisateur est averti que les modifications ou les changements non approuvés par la partie responsable de la conformité peuvent annuler l'autorisation de l'utilisateur d'utiliser l'équipement.

EATON WIRING DEVICES LIMITED 2 YEAR WARRANTY

Eaton Wiring Devices warrants its Wi-Fi smart device to be free of defects in materials and workmanship in normal use and service for a period of two years from date of original purchase. THIS TWO (2) YEAR LIMITED WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, OBLIGATIONS, OR LIABILITIES, EXPRESSED OR IMPLIED INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE THAT IS IN EXISTENCE IN EXCESS OF TWO YEARS FROM THE DATE OF ORIGINAL CONSUMER PURCHASE. NO AGENT, REPRESENTATIVE, OR EMPLOYEE OF EATON HAS AUTHORITY TO INCREASE OR ALTER THE OBLIGATIONS OF EATON UNDER THIS WARRANTY. To obtain warranty service for any properly installed Eaton smart device that proves defective in normal use and the defective smart device is replaced and repaired by Quality Control Dept., Eaton Wiring Devices, 203 Cooper Circle, Peachtree City, GA 30089, in Canada: Eaton Wiring Devices, 5055 McLaughlin Road, Mississauga, Ontario L4R 1B4. Eaton will repair or replace the defective unit, at its option. Eaton will not be responsible under this warranty if examination shows that the defective condition of the unit was caused by misuse, abuse, improper installation, alteration, improper maintenance or repair or damage to shipment to Eaton. EATON SHALL HAVE NO RESPONSIBILITY FOR INSTALLATION OF THE SMART DEVICE, OR FOR ANY PERSONAL INJURY, PROPERTY DAMAGE, OR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL DAMAGES OF ANY KIND, RESULTING FROM DEFECTS IN THE DIMMER OR FOR BREACH OF ANY EXPRESS OR IMPLIED WARRANTY OF THIS PRODUCT. THE EXCLUSIVE REMEDY FOR BREACH OF THE LIMITED WARRANTY CONTAINED HEREIN IS THE REPAIR OR REPLACEMENT OF THE DEFECTIVE PRODUCT AT EATON'S OPTION, IMPLIED WARRANTIES IF ANY, INCLUDING, BUT NOT LIMITED TO IMPLIED WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE AND MERCHANTABILITY, ARE LIMITED IN DURATION TO A PERIOD ENDING TWO YEARS FROM THE DATE OF ORIGINAL CONSUMER PURCHASE. IN NO CASE SHALL EATON'S LIABILITY UNDER ANY OTHER REMEDY PRESCRIBED BY LAW EXCEED THE PURCHASE PRICE. Some states do not allow the exclusion or limitation of incidental or consequential damages or allow disclaimer or modifications of or limitations on how long an implied warranty lasts, so the above limitations may not apply to you. Some Canadian provinces do not allow exclusion or variation of implied warranties so that some or all of the above limitations may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state and province to province. Read enclosed instructions carefully. If you have any questions concerning use or care of this product, please write: Consumer Service Division, Eaton Wiring Devices, 203 Cooper Circle, Peachtree City, GA 30089.

Issues setting up or using your device?

Q: Device not working, load does not come on, LED indicator bar not functioning

WARNINGS AND CAUTIONS

- Turn OFF circuit breaker or remove fuses! and test that the power is OFF before starting the installation process
- Never wire any electrical device with power turned ON
- If you are not sure about any part of these instructions, please contact a licensed electrician
- If bare copper or green ground connection is not available in the wallbox, contact a licensed electrician for installation
- Use only #14 or #12 copper wire rated for at least 75 degrees C with these devices. DO NOT USE ALUMINUM WIRE

CAUTION

- Use only with 120V/AC 60Hz
- Do not exceed the maximum rating of the dimmer as indicated on the device
- Must be installed and used in accordance with all national and local electrical codes
- Suitable for installation in outlet box measuring a minimum 3" x 2" x 2-1/2" deep and wired in accordance with NEC article 314 box fill requirements

IMPORTANT

- The dimmer will not work or will be damaged if wired incorrectly and the warranty will be voided. Refer to the wiring instructions provided
- Wiring dimmer HOT may cause permanent damage to dimmer and void warranty

OPERATION INSTRUCTIONS

- Press the ON/OFF button to turn the lights ON
- Press the button again to turn the lights OFF
- Pull the air gap switch to disconnect power to the load

QUICK MAX

- When the lights are OFF, press and hold the ON/OFF button for 2 seconds. The device will then instantly turn ON at its maximum brightness level

DELAYED OFF

- When the lights are ON, press and hold the ON/OFF button for two seconds. The device will then wait 10 seconds before turning the lights OFF. During this time, the LED indicator bar will blink white until the lights turn OFF. At this point, you can press the ON/OFF button again to override the timer and turn OFF the lights immediately.

FACTORY RESET

- The dimmer can be reset which will exclude it from its network and restore all factory defaults.
- Press and hold the Privacy button for 30 seconds. Upon successful completion, the LED indicator bar will slowly fade in and out and orange color to indicate that the device is now unregistered and ready to be setup again.

DIMMER RATING

	Load Type	Single Gang	2-Gang	3-Gang
WFAVD30	CFL/LED/FLR/ MLV/INC/ HAL/ELV	300W	300W	200W
