

Solder Board-Component View 3	 A photograph showing a small electronic component, likely a module, mounted on a green printed circuit board (PCB). The component is positioned horizontally. It features a central green PCB with various electronic components, including a microcontroller, memory chips, and connectors. The module is flanked by two larger, rectangular, silver-colored metal heat spreaders or shielding components. The entire assembly is placed on a blue textured surface. A black ruler with white markings is visible in the background, providing a scale for the component's size.
Solder Board-Component View 4	 A photograph showing a small electronic component, likely a module, mounted on a green printed circuit board (PCB). The component is positioned vertically. It features a central green PCB with various electronic components, including a microcontroller, memory chips, and connectors. The module is flanked by two larger, rectangular, silver-colored metal heat spreaders or shielding components. The entire assembly is placed on a blue textured surface. A black ruler with white markings is visible in the background, providing a scale for the component's size.

Solder Board-Component View 5	 A photograph showing a small, square, yellowish component with a single wire attached, resting on a blue textured surface. A black ruler with white markings is placed below the component for scale. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).
Solder Board-Component View 6	 A photograph showing a small, rectangular, green component with a single wire attached, resting on a blue textured surface. A black ruler with white markings is placed below the component for scale. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).

Solder Board-Component View 7	 A photograph showing two yellow rectangular components, likely antennas, connected by wires to a small circuit board. They are placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
Antenna View	 A photograph of a circuit board with three antennas highlighted by red boxes and labels. The labels are: 'WIFI/BT Antenna' (top left), 'LTE Antenna' (top right), and 'GPS Antenna' (bottom left). The antennas are yellow and black, and the circuit board is green.
